NAZIS DEMAND UNLIMITED BOMBING

9,174 PLANES NOW ON ORDER FOR U. S. ARMY

Stimson Reveals Figures in Discussion of Defense Program.

By The Associated Press

WASHINGTON, Sept. 19—Secretary Stimson announced today that the war department had signed contracts since July 1 for 9,174 of 18,641 war planes for which congress has provided funds at this session.

Reviewing progress made by the army in reinforcing defenses in the last three months, Stimson said the figures were for airplane purchases 'as of today." At the same time Stimson in a series of announcements, disclosed tentative plans to call to active duty approximately 37,000 national guard officers and men in November. They will comprise the third and fourth national guard increments to be called out.

Under present plans, no further units then will be ordered to service before Jan. 3.

60,000 In Uniform

An initial group of 60,000 guardsmen donned uniforms Sept. 16 and 36,000 others have been ordered to report Oct. 15.

Samson said that approximately 1,577 officers and men of the 56th cavalry brigade of Texas would be ordered temporarily to Fort Bliss, Tex., on Nov. 18. On Nov. 29 about 35,565 officers and men from 16 states are to be ordered out as the fourth increment.

The principal units in the fourth increment are the 31st division from Florida, Alabama, Mississippi and Louisiana, 35th division from Nebraska, Kansas and Missouri and 36th division from Texas. They have been assigned already to Camp Blanding, Fla., Camp Robinson, Ark., and Brownwood, Tex., respectively.

In addition to the plane and guard announcements he said also

To Enlarge Fort Knox

The war department has begun investigation of titles looking to the purchase of between 20,000 and 30,000 acres to enlarge the present 33,000-acre area of Fort Knox, Ky., headquarters for the newly organized first armored corps.

Construction of barracks and other facilities for an aggregate of more than 100,000 troops has been authorized at seven military posts.

Approximately 3,600 reserve corps lieutenants now on active duty will be promoted temporarily. About 14,000 out of about 120,000 reserve officers are on active duty.

Samson said that the department had no intention of setting up officers' training camps in connection with the draft since there was a reservoir of 120,000 reserve officers already available.

Driverless Truck Coasts Half Block, Hits Porch

A run-away truck weighing about 15 tons with its load of steel, rolled down South Main street early today and ended up almost on the front porch of the lower part of a duplex residence just south of the City library. The lower part of the house is occupied by Mrs. Zula Renwick and her two children. Mr. and Mrs. William Duncan live upstairs.

The huge vehicle owned by the United Truck Service Co., was enroute to Columbus from Findlay when the driver stopped here about 4:45 a. m. to help out a fellow driver whose truck had broken down.

Had Parked Truck

The driver, John Peck, 31, of Columbus, parked the truck in front of the Midtown Chevrolet Co. about a half block north of the Renwick home at 254 South Main. Peck left the motor running and the air brakes on, but the motor died, automatically releasing the brakes and the truck began to roll according to a report to police.

Herman Kropp, 31, of Columbus, who was working on the other truck which had stalled, said that he and Peck failed to notice the run-away until it had a head-start. They ran after it but couldn't catch up.

The truck swerved from the west side of the street over to the east side, bounded over the curbing in front of the library, squeezed between a lamp post and a tree and did not halt until it was on the lawn of the Renwick home.

Narrowly Misses Pillar

It missed a brick pillar of the house by about six inches and sheared off the porch steps. The truck itself was damaged, mainly at the front axle.

The truck had been parked about 15 minutes before it began its driverless journey.

In going between the lamp post and tree in front of the library, the huge vehicle nosed through a space only a few inches wider than the truck.

The fact that the Renwick lawn is a few feet higher than the sidewalk is believed to have been responsible for halting the truck before it plunged farther south into adjoining property.

LONDON NIGHT RAID TERMED WORST OF WAR

Capital Called Most Bombed City in History; Attackers Back Today.

By The Associated Press

LONDON, Sept. 19 — Several casualties and some damage were caused this morning when a German raider beginning a daylight attack in the wake of a heavy night assault, dropped three or four bombs on an East London district.

The raider opened a new day—the thirteenth—of the Nazi air offensive against London already rated the most bombed city in history, as the city's millions sought to resume their tasks and to put right as far as possible the damage done in an all-night raid described by reporters as the fiercest yet.

German bombers flew to the renewed assault over England's east and southeastern coasts and the air ministry reported three shot down in morning fighting, one over East Anglia northeast of London, and two off the southeast coast.

Londoners traveled to work on busses which crawled through damaged streets and along devious detours, and surveyed the battered facades of business buildings newly damaged in last night's dusk to dawn raid which reached a new peak of intensity.

Demand Deep Shelters

A portion of the press raised new demands for deep bombproof shelters to provide dry, warm and sanitary protection for the long winter months ahead, and suggested removal of the aged and infirm from the huge city and its widening areas of devastation.

Moderate gales whipped up whitecaps on the English channel and there were indications of rain before nightfall had omens for any invader attempting to cross from the French or Belgian coasts.

Tremendous loads of explosives were dumped by the Germans last night, principally in South London but also in central London, and in practically every other part of England as well—Lancashire, Hertfordshire, Berkshire, Essex, Sussex, Kent, the Midlands, northeast and southwest.

One Merseyside district reported an extremely savage bombing which lasted several hours. More than 100 bombs were dropped.

New devastation and damage in central London included the Peter Robinson department store at Oxford Circus, the London county hall just across Westminster bridge from the house of parliament, the courtyard of the world-famous British museum, the Wallace art collection, courtyard the inner temple (law courts) library and the public records office.

Oxford and Regent streets, two of the West End's busiest thoroughfares, were closed to traffic.

Forty-eight German planes were destroyed in yesterday's air battles, the air ministry said. Twelve British planes were lost, but nine of their pilots were reported safe.

At least three Dornier bombers were reported shot down last night and this morning.

SAVED ST. PAUL'S

A member of the Royal Canadian Engineers, Lieut. R. Davies, 45, directed the "suicide squad" which worked four days and nights to extricate a one-ton German time-bomb buried in a street near St. Paul's Cathedral and threatening to demolish the famous structure. The bomb later was exploded harmlessly in a swamp. (International News Photo.)

PRESS SOUNDS CALL AS NINE CHILDREN DIE

Sources in Berlin Hint War Against Britain May Go on Through Winter.

By The Associated Press

BERLIN, Sept. 19—A call for unlimited bomb warfare on England in retaliation for the reported bombing of a German hospital was sounded in the German press today.

It followed cautious hints that the aerial struggle might go on through the winter, but with new pressure of some sort on other 'vulnerable' points of the British empire.

Dr. Angriff, Propaganda Minister Goebbels' paper, demanded thousand-fold retaliation for the bombing at Bethel, Prussia, in which the high command said nine children were killed and 12 injured by RAF night raiders.

Another newspaper, Nachtausgabe, said that "hereafter not the slightest consideration need be taken" for British civilians.

Deutsche Allgemeine Zeitung indicated that "the scoring of accounts will be terrible."

The afternoon press, furthering the angry comment in morning papers, was unanimous in sentiment for eye-for-an-eye action by the German air force.

There were hints of extension of the war in both time and space.

They supplemented the declaration by authorized spokesmen that "tangible deeds" would follow the axis parley in Rome, now under way, and coincided with official reports on the bombardment of London and England which pictured no deviation from the established nature of the last 12 days of almost continuous raiding.

Action Summarized

The high command, summarizing the last 24 hours' actions, reported bombardment of:

Docks and port facilities at Tilbury,

British government shipyards at Chatham,

Oil tanks at London's Victoria docks,

Several ships, including a tanker, which were left burning,

The Silvertown and Royal Albert docks at London as well as "other important objectives,"

Port facilities at Liverpool,

Chemical works at Billingham-On-Tyne,

Docks at Newcastle, and

Airports in central England.

The daily communique said that the "retaliatory" attacks on London "continued with increased intensity during the night" and that Nazi airmen in "rolling raids" struck at docks and other targets with heaviest caliber bombs.

Meanwhile, said the high command, "the mining of southern English ports continues."

Mine British Ports

The high command also told of RAF attacks in northern France and Belgium, "without causing noteworthy military damage," and a raid last night on western Germany in which, it was charged, the British bombed "non military targets and raided Bethel hospitals."

"Three hospital buildings were destroyed, although the Red Cross visibly identified them as such," said the communique. "Nine children were killed and 12 injured."

This bombardment, at Bethel near Bielefeld, Prussia, drew the anger of the Nazi press.

ITALIANS PRESS EGYPTIAN DRIVE

17 Divisions of Libyan Troops Thrown Into Campaign Against British.

By The Associated Press

ROME, Sept. 19 — Italy has thrown 14 Libyan divisions (about 170,000 men) in addition to Italian troops into the drive into Egypt and pushed back the British in a disorderly retreat, Marshal Rodolfo Graziani reported to Premier Mussolini today.

The Italian commander's report was made as a high command communique disclosed that the British fleet and air force had bombed and shelled Italian positions along 350 miles of the Egyptian and Libyan coast, as well as in East Africa and the Dodecanese islands, in the eastern Mediterranean.

Graziani was reported to have told Mussolini he used 2,000 motor trucks in the eastward drive which surprised the British.

(Previously it was reported at least two columns were engaged in the invasion, one of Libyans, and another of Italian troops.)

British military experts had estimated only 150,000 troops and but few trucks could be used over the terrain available to the advance, Graziani said.

The British fled in disorder, abandoning equipment along the desert roads, losing more than half their tanks and armored cars, and suffering from shortage of gasoline and water under the bombing and machine-gunning of the Italian air force, the marshal reported.

The British had considered it impossible to spring a military surprise in the desert where cover is lacking to conceal troop movements, the Italian commander reported, and had concentrated their motorized forces south of Sidi Omar, some miles from the coast.

The Italians then launched their attack along the coastal road toward Sidi Barrani with their left wing in a sudden change of plans.

Libyan troops marched on foot 150 miles in eight days, with only about a quart of water per day for each man, the commander said, despite suffocating heat in a sandstorm.

Italian bombers and fighters put the British fleet to flight and seriously damaged a 10,000-ton cruiser with an aerial torpedo when the warships closed in to shell Italy's new positions and communication lines between Bardia and newly-seized Sidi Barrani, Egypt, the communique said.

Distribution of Draft Forms Starts from Washington To States Today

Master Copies of Blanks Speeded by Airmail to All 48 Capitals for Printing.

By The Associated Press

WASHINGTON, Sept. 19—Distribution of draft registration forms for printing began today, with master copies of the first four blanks speeding by airmail to the 48 states, where they will be reproduced by the millions.

The forms enroute were the first of the series of 64 cards, questionnaires, placards booklets and the like which will be needed in the huge task of enrolling 16,500,000 men next month and selecting some of them for military service. The ultimate cost of all draft printing is estimated at $1,500,000.

Preparing in advance for the operation of the draft organization which the President is expected to call into official being today, army and navy selective service officials estimated that 32,000,000 registration cards, 24,000,000 registration certificates and 24,000,000 questionnaires would be required.

States Name Boards

As the printing orders went out, state draft organizations already were taking form in anticipation of presidential action. Illinois named 284 three man draft boards subject to official appointment by Mr. Roosevelt. Other states were believed pursuing similar courses.

A house appropriations subcommittee, meanwhile, called Gen. George C. Marshall, army chief of staff, to testify at a closed hearing today on President Roosevelt's request on funds for starting the draft.

Mr. Roosevelt asked an additional $1,733,886,976 cash and $207,000,000 contract authorizations for the army, navy and other government branches participating in the defense program.

Informed sources said these sums would be sufficient to meet expenditures for draft trainees and mobilized national guardsmen until well into the 1941 calendar year.

Although final congressional action on the appropriations was expected to require several days, all states already have received tentative allotments from it to defray the costs of printing the conscription forms and literature now being distributed.

While the war department was proceeding with its plans for the conscription registration Oct. 16, the senate wrote into the excess profits tax bill a provision enabling the President to establish allowances for dependents of those drafted.

The provision was phrased in broad language purposely in order that senate and house conferees may work out a more definite plan later. The outlay for dependents is expected to be relatively small at first, because the general policy will be to place men who are supporting other members of their family in a deferred classification. However, they may be drafted later.

TAFT WARNS AGAINST DEBT

Tells G. O. P. It Eventually Will Mean Confiscation of People's Savings.

By The Associated Press

COLUMBUS, O., Sept. 19—Ohio Republicans returned to the campaign wars today with a platform pledging "no new or increased taxes" and fortified by U. S. Sen. Robert A. Taft's warning that continuation of New Deal methods would bring "confiscation of the savings of the people" to pay governments debts.

Senator Taft was permanent chairman of the G. O. P. state convention, which in a single day adopted its terse, 1,700-word platform, selected its presidential elector candidates and heard a dozen speeches.

'New Deal economists are grasping like drowning men at the tremendous expenditure for national defense which they hope may restore a reasonable prosperity during the election campaign," Taft declared.

Says Paper Money Coming

'When the people can no longer bear the burden of the (New Deal) debts, we will pay our debts with paper money, and prices will rise until neither wages or other income can buy the family groceries * * * In effect, we will pay our government's debts by confiscating the savings of the people."

Taft said that proposed tax increases fall far short of the additional cost of national defense and that the budget would never be balanced "until a courageous Republican party under Mr. Willkie's leadership cuts the expenses and raises the taxes necessary to face the facts."

The platform promised to increase old age pensions to a maximum of $40 a month, based on individual needs, and "adequate relief" to the needy.

Its other points pledged:

Improvement in the workmen's compensation system,

Adequate appropriations for mining safety and support of programs for increasing the use of Ohio mined coal,

Continuance of "the long-range, forward-looking program of the big-partisan conservation commission,"

Continued operation of the state liquor department "honestly, economically and in accordance with law and good business practices,"

Institutional expansion to relieve overcrowding in state welfare institutions,

Support of the school foundation program, and

Unqualified opposition to discrimination because of race, creed or color in the civil service, the military and naval services, all branches of government and in the schools, colleges and universities of the state.

Hits Farm Control

The platform also opposed a third term for president and expressed belief that "every farmer has an inalienable right to be master of his own farm, without governmental interference."

Addressing the convention, Gov. Bricker compared his administration with that of Martin L. Davey, his predecessor and Democratic nominee for a third term.

"Two years ago the leaders of state government were under a dark cloud of suspicion," he asserted. "Today we proudly point to the fact that not one single charge of misconduct in office has been made against any leader in the state government by a reputable person."

Hospital Benefit Barbecue Set by Groundhog Club

Living up to their tradition of helping some worthy cause, members of the old Groundhog club will again sponsor a benefit. This time it will be a barbecue at the Marion county fairgrounds on Thursday, Oct. 17, and the beneficiary will be the Marion City hospital.

Proceeds will be turned over to the Woman's Board of the Marion City hospital to be used in their work at the hospital. Tickets will be sold by members of the board, starting next Monday, and the Groundhog club will be in charge of all arrangements for the barbecue. Cooperating with the sponsors are members of the Marion county fair board who have donated the use of the grounds. The food will be cooked by Leon Bomis, chef at Hotel Harding. The barbecue will be held both afternoon and evening, the sponsors announced. Serving as a committee are Fred E. Guthery, Charles E. Curtis and Elmer J. Schoenlaub.

The club was active years ago as a men's social group.

PLEADS INNOCENT IN PATROLMAN'S DEATH

Trial Set Oct. 2 at Bucyrus for Galion Resident.

Special to The Star

BUCYRUS, Sept. 19—John Edwin Smith, young Galion man indicted for manslaughter in the death of Galion Patrolman Clarence H. Upson, pleaded not guilty at arraignment before Common Pleas Judge C. U. Ahl here this morning. His trial was set for Oct. 2.

Attorney C. E. Kneisly, representing Smith, requested that no bond be set and Smith was returned to the county jail where he has been held since Aug. 7.

Patrolman Upson died on the way to a Galion hospital after being struck by Smith when the officer attempted to dissuade the youth from driving an automobile, officials said. Upson had seen Smith coming from a nearby tavern.

Four other persons indicted by the grand jury last week pleaded guilty and were sentenced.

Leo McClintock of Bucyrus, neglect to provide for minor children, sentenced to Ohio penitentiary for indeterminate period.

George Crampton of Bucyrus, morals charge, sentenced to Ohio penitentiary for indeterminate period not to exceed 20 years.

Charles Cahlik and Andrew Johnson, of Cleveland, charged jointly with taking the automobile of Rollin Koons of Bucyrus without the owner's consent, were sentenced to the Mansfield reformatory for indeterminate periods. Fred King, a juvenile indicted with them, is being held for juvenile authorities.

LOST CHILD RETURNED, CASE CALLED KIDNAPING

Police Seek Abductors of Pennsylvania Boy

By The Associated Press

CONNELLSVILLE, Pa., Sept. 19—While a youthful farming couple rejoiced today—on their 13th wedding anniversary—over the safe return of their "baby" son after his strange disappearance four days ago state police decided it was a case of abduction and set out to find the kidnaper.

Sergt. Harry C. Johnson said he believed two-year-old Ronald Rumbaugh had been "placed" in a cornfield where an airplane pilot spotted him yesterday afternoon. The pilot guided the boy's father and others to the scene.

Hurried to a hospital, little Ronald was given milk, ordered on a liquid diet, and put to bed.

The police theory of abduction began when hospital authorities reported the boy showed no signs of fatigue or other ill effects.

The sergeant said he believed some one had "snatched" the child, then, frightened by the hue and cry aroused, had left him in a "safe place" for eventual return where he would soon be found.

ALIBI SOUGHT IN WOESSNER TRIAL

Former Crestline Man Facing Jury on Murder Charge.

Counsel for Alpha Woessner sought today to establish an alibi in defending the 31-year-old U. S. army private, being tried at Fremont on a second degree murder charge in the death of Walter Snyder, 23, Fremont sugar refinery worker, the Associated Press reported.

Woesner is a former Crestline man.

Snyder's body was found in the Sandusky river last Dec. 7, more than a month following his disappearance.

In the opening of the trial yesterday, a jury of seven men and five women heard Robert Metz, a roomer in a home where Woessner had lived, testify that Woessner threatened to "get" Snyder. Metz said Woessner objected to Snyder's attention to a married woman.

Nine state witnesses completed their testimony yesterday. It was expected the case would be concluded today.

In an alleged signed confession in which Woessner said he struck Snyder in a fight back of a tavern in Fremont and left him lying there on Oct. 31 was admitted as evidence by Trial Judge A. V. Baumann.

Woessner, an army private and a former Fremont steeplejack, had been brought from Fort Sheridan, Ill., army post for questioning in the early stages of the investigation of Snyder's death.

He was sworn in by Stanley Reed, associate justice of the supreme court in the presence of President Roosevelt.

Jones succeeds Harry Hopkins who had resigned because of his health.

RIBBENTROP IN ROME TO MAP WAR PLANS

Broadening of War Hinted in Conference.

By The Associated Press

ROME, Sept. 19—Adolf Hitler's foreign minister Joachim Von Ribbentrop conferred with Premier Mussolini this afternoon and on his consultation may pivot the next turn in the European war.

Linked with the talks at il Duce's Palazzo Venezia was the possibility of a broadened war with indications that Spain might be drawn in at least to the extent of permitting an axis drive across her territory against Britain's Gibraltar stronghold.

The axis powers are determined on a totalitarian victory over Britain according to Virginio Gayda and in this fight to the finish other European nations are involved "not as spectators alone."

This comment by Italian fascism's spokesman-in-chief gave considerable point to the axis council of war. Observers interpreted it as a reference to Spain's potential role.

Italian Foreign Minister Count Galeazzo Ciano and German and Italian ambassadors to each other's capital, Hans-George Viktor Von Mackensen and Dino Alfieri, respectively, were present at the Palazzo Venezia meeting.

Von Ribbentrop had come to Rome on an armored train like that given to Mussolini by Hitler. German troops manned anti-aircraft guns on the carriages.

NEW YORK TIMES TO BACK WILLKIE

Paper Supports First Republican Since 1908.

By The Associated Press

NEW YORK, Sept. 19—The New York Times, which supported Franklin D. Roosevelt for president in 1932 and 1936, came out against a third term today in an editorial supporting Wendell L. Willkie.

The Times, an Independent-Democratic newspaper, has not supported a Republican presidential candidate since 1908.

The paper said it chose Willkie "primarily for these reasons."

"Because we believe he is better equipped than Mr. Roosevelt to provide this country with an adequate production; because we believe he is a practical liberal who understands the need of increased production; because we believe that the fiscal policies of Mr. Roosevelt have failed disastrously; because we believe that at a time when the traditional safeguards of democracy are failing anywhere it is particularly important to honor and preserve the American tradition against vesting the enormous powers of the presidency in the hands of any man for [illegible] consecutive terms."

All Holidays on Monday, One New One in Calendar Plan Miss Achelis Proposes

By ADELAIDE KERR
Associated Press Writer

NEW YORK—Lots of women have flouted time, but Elizabeth Achelis of New York is trying to change it.

She wants to revise the calendar.

This handsome, white-haired woman, president of the World Calendar Association, proposes a new World-Calendar which would divide the twelve months into four equal quarters, even up the lengths of months and make dates fall on the same day of the week each year.

"The constant change of the present calendar brings confusion," she says. "You don't change clocks and tape measures from year to year. Why shouldn't there be a changeless calendar?

Miss Achelis, a former debutante and member of the League for Political Education, claims no credit for the original idea, but she has put a lot of punch into it. Eleven years ago she heard a lecture on calendars and agreed a change was needed.

A year later she founded the World Calendar Association, which now has 11,000 members.

Quarters of 91 Days

The World Calendar, which the association would like to see go into effect on the last day of 1944, divides the year into four quarters of three months, and 91 days each.

The quarters begin in January, April, July and October—each of these months having 31 days. The other months have 30 days. This takes care of 364. The 365-day is an extra immediately after Saturday, December 30, and is called December Y or 31. It is classified as a year-end holiday. The extra day in Leap Year is placed immediately after June 30, is called June L or 31 and is fixed as a second world holiday.

With the World Calendar, the year would always begin on Sunday, January 1. Christmas and Thanksgiving Day (if celebrated in the fourth week of November) would always fall on Monday.

The calendar association favors Monday holidays and suggests that Memorial Day be moved from May 30 to May 27 and Columbus Day from Oct. 12 to Oct. 9, so they would fall on Monday.

MISS ELIZABETH ACHELIS
Heads 11,000 Calendar Reform Advocates

Sees Aid To Business

"The new calendar has a great many advantages," says Miss Achelis. "Since each date would fall on the same day of the week each year, it would do away with that search for a calendar before one can make an engagement.

"It offers advantages to business too. Under the present calendar system it is difficult to compare quarterly reports, because some quarters have more business days than others. The World calendar would make exact comparison possible. It would aid the farmer in planting, fix the beginning of the school year and make possible the regular arrangement and enjoyment of holiday."

'But one of the things I like best about it is the fact that, in adopting it, nations of the world would be in agreement on one thing and would universally observe two holidays. One such agreement might lead to another, and thus the calendar might be a step along the road toward peace.

"It has already been approved by 14 governments—those of Brazil, Chile, Mexico, Panama, Peru, Uruguay, Esthonia, Greece, Hungary, Norway, Spain, Turkey, Afghanistan and China."

Miss Achelis and associates want to see it go into effect at the end of 1944, because, they say, the transition could be made then "without a hitch." Under the present calendar system, December 30 of that year falls on Saturday. The following day (Sunday, December 31) could then become the new year-end day and the World Calendar if adopted would be in effect on Sunday, January 1, 1945.

They advocate an international conference to draw up an international treaty.

What about undertaking such a change in war time?

"Daylight saving went into effect during the last World War," Miss Achelis says, "What is there about war to prevent a calendar change?"

YOUR HEALTH

By LOGAN CLENDENING, M. D.

Deafness

From the viewpoint of function the organ of hearing consists of two parts:

First, the sound-conducting part. This consists of the external ear, the ear drum and middle ear, and part of the internal ear. Second, the sound-perceiving part which consists of the organ of Corti in the cochlear bone of the internal ear where the end fibers of the auditory nerve are spread out in a spiral shape so that each one, like the individual pipes of an organ, responds to a single note. Then the auditory nerve and the sound perceiving areas of the brain.

Most cases of deafness in children are of the conduction type due to inflammation of the middle ear. The commonest cause of such inflammation is from infection in the throat, most often an infected adenoid that lies over the end of the Eustachian tube. The Eustachian tube goes from the throat to the middle ear.

Any of the infectious diseases of childhood may leave an infection in the middle ear as a residue influenza and meningitis are particularly dangerous in this respect; whooping cough less so.

The canal of the external ear can be affected so as to cause deafness in childhood. Boils or plugs of wax are the commonest forms of such obstruction.

In the care and prevention of deafness in childhood much can be done. Every discharging ear should have careful and adequate treatment. During and after one of the infectious diseases, daily inspection of the ear drum should be made, and early incision instituted if pus forms.

SHREWD DEDUCTION

By The United Press

FORT WAYNE, Ind.—A shrewd bit of deduction, coupled with an understanding of women, enabled detectives to recover two rings and a watch valued at $215 whose owner thought they had been stolen from her apartment. Finding no definite evidence of a forced entrance, the detectives searched the garbage can and found the jewelry wrapped in discarded orange peels.

Daily Pattern for Home Use

PERT OFFICE OR CAMPUS FROCK

PATTERN 4580

Working girl...school girl...or just busy young miss about town—Pattern 4580 by Anne Adams is a frock you'll really need! The skirt with its bias front panel, has the jaunty flare girls adore. And the waist-seam swoops to a high point for that grand "slim-away" look. There are nicely bloused lines in the yoked bodice, and long, three-quarter or short sleeves. Make the bow-tying sash just in back, or for greater effectiveness, let it come from the front—either from the panel seams or stitched right on top. Wouldn't the prim little collar and the sash be lively in velveteen on a frock or plaid or checked wool?

Pattern 4580 is available in junior miss sizes 11, 12, 13, 14, 15, 16 and 17. Size 13 takes 3½ yards 39 inch fabric and ¾ yard contrast.

Send fifteen cents (15c) in coins for this Anne Adams pattern. Write plainly size, name, address and style number.

Three cheers for the Anne Adams Fall and Winter Pattern Book—just off the press! It's right in key with the American spirit of freedom and individuality. There are vivacious youngster styles...wardrobes for career girl and collegiate... home - maker modes. You'll see tailored wear, stunning afternooners, and a "full-dress parade" for evening. A department is devoted to slimming frocks; another to lingerie and accessories. Order your copy now! Book 15 cents. Pattern 15 cents. Book and pattern together 25 cents.

COUPLE MARRIED 50 YEARS

MR. AND MRS. W. G. ROSZMANN

Open house from 2 to 5 o'clock in the afternoon and 7 to 10 o'clock in the evening Sunday will mark the golden wedding anniversary of Mr. and Mrs. W. G. Roszmann at their home at 563 Cherry street.

The ceremony uniting the couple was read Sept. 25, 1890 by Rev. Paul Hensge at the Windfall manse. Before her marriage Mrs. Roszmann was Miss Margaret Ruehrmund, daughter of Ferdinand and Margaret Beckel Ruehrmund. She was born in Richland township, Marion county, May 18, 1871. Mr. Roszman was born Aug. 6, 1868, in Richland township. His parents were Charles and Dorothy Helmlick Roszmann.

The first 29 years of their married life the couple lived on a farm in Westfield township, Morrow county. They have made their home on Cherry street for the last 21 years. Mr. Roszmann has been employed at the Sawyer Sanatorium for the last 11 years.

Mr. and Mrs. Roszmann have one daughter, Mrs. D. H. Rengert and a grandson, Richard Rengert of one mile north of Brush Ridge.

BRUSH FIRE COOKS FISH

By International News Service

TWIN FALLS, Ida.—This isn't just another fish story. These fish were cooked. The cooking resulted in Shoo Fly creek, Owyhee county, when a raging brush fire heated the waters of the stream to near-boiling, according to F. H. Miller, U. S. grazing service regional fire chief.

SUPER-STRAWBERRIES

By International News Service

ESSEX JUNCTION, Vt.—Robert Holmes certainly grows the berries. When he heard that Conrow Chamberlain of Jericho used but 25 of his strawberries to fill a quart basket and C. S. Young of St. Albans, did the same with 22 berries, Holmes invited all interested parties to inspect his strawberries. "They're nearly as large as a cauliflower," he said.

PATRIOTISM ON TOUR

By International News Service

SAN FRRANCISCO, Calif.—A trio of San Francisco youths, William Young and William and Edward Peterson, adopted an unusual way of demonstrating their patriotism while on a motor tour which took them into Canada. The boys bought three berets, red, white and blue respectively, which they perched on their noggins in the proper order while driving.

Wheat Loans In Marion Co. Reach Total of $55,857

With the deadline for wheat loans more than three months away, the Marion County AAA office announced today that already 223 loans on 1940 wheat amounting to $55,857.92 have been made to Marion county farmers under the AAA wheat loan program.

In 1939 only 36 loans totaling $9,273.66 and covering 13,069 bushels were made to local farmers. Loans to date show an increase of 187 over those made last year.

C. P. Harper, chairman of the committee, said that the rush for wheat loans is indicative of the success of the wheat loan program last year when many local farmers paid off their loans and sold their wheat at more than $1 a bushel. "This was considerably higher," he said, "than the market price of 65c a bushel they would have received at harvest time."

Loans are made at a rate of 75c a bushel for No. 1 wheat and 74c a bushel for No. 2 wheat, to farmers who seeded within their 1940 wheat acreage allotment.

The program this year has been simplified considerably, the chairman explained. All the farmer must do, if he is eligible, is to take the wheat to the elevator, obtain the warehouse receipt and return it to the AAA office where loan documents will be made. On the same day, the farmer can take the loan papers to any one of the cooperating local banks and the money will be paid immediately.

Loans are also available to farmers who wish to store their wheat on their farms. Loans will be accepted until Dec. 31.

UNUSUAL ILLUMINATION

By International News Service

SANTA CRUZ, Calif.—An infinitesimal organism, the gonyaulax catanella, is causing a lot of excitement in Santa Cruz water. One result of its presence is the remarkable phosphorescent glow which illuminates the white-capped breakers off the Santa Cruz shore every night and becomes a dull brownish red by daylight.

Social Affairs

THE Literature Study club opened the 1940-41 season last evening with a dinner at Bun's restaurant in Delaware, followed by an evening at the home of Prof. and Mrs. George Hollister in Delaware.

Professor Hollister is a native of India and his wife, member of a missionary family, lived in China for years. Mrs. Hollister showed her collection of old Chinese treasures, including porcelain dating back more than 1,000 years, and told of her part in assisting Faith Baldwin in writing "The American Family."

Guests of the club were Mrs. Harry Friedberg, Mrs. Frank Wiedemann, Mrs. Stella West, Miss Grace Cunningham and Miss Philomen Gregg.

MRS. MERLIN MITTON, the former Miss Bettie Maag, was complimented with a miscellaneous shower at a post-nuptial party given last evening by Misses Ruth Bowers, June Kolwey and Bettie Hawkins at the Bowers home at 249 Uhler avenue.

A profusion of fall flowers decorated the home. By piercing multicolored balloons suspended from the living room chandelier, Mrs. Mitton found verses directing her to her gifts hidden throughout the home.

The evening was spent playing *cootie*, honors going to Miss Betty Craven and Miss June Augenstein. Lunch was served at a large table and three small tables.

The large table at which Mrs. Mitton was seated was centered with a mirror plateau holding a white wedding cake topped by a miniature bride and bridegroom. Peach and blue candles lighted the table and when Mrs. Mitton cut the wedding cake it was replaced on the mirror by a white bowl with flowers in her wedding colors of peach and blue. Small vases of flowers decorated the small tables. Favors were tiny peach and blue umbrellas set in gum drops.

For the hostesses and many of the guests it was their first time together since their graduation from Harding High school in 1939.

Guests were Mrs. Mitton, her mother, Mrs. Esther Maag, her sisters, Mrs. Robert Jay and Miss Joan Maag, Mrs. Grover Mitton, mother of the bridegroom, Mrs. Charles Bowers, Mrs. Margaret Hawkins and Misses Betty Wheaton, Betty Craven, Betty Newell, Betty Canoe, Betty Koehler, Eileen Mitton, Ardyth Mitton, Maxine Mash, Esther Marie Eggleston, June Augenstein and Erma Mitton.

MRS. LOY LIKENS entertained with a miscellaneous shower last evening at her home at 538 Forest street for the pleasure of Miss Betto Powell, a bride-elect of Sunday. Ringing of alarms throughout the home directed Miss Powell to her gifts.

Bride was played throughout the evening. Pink and blue, Miss Powell's chosen colors, were used in the decorations. Wedding bells of white caught with streamers of the colors, with lighted tapers at either side, formed the centerpiece for the table at which a buffet lunch was served by the hostess, assisted by Miss Mary Kathryn Stone. Favors were individual cakes decorated to form corsages and tied with the bride's colors.

Guests were Miss Powell's mother and her sisters, Mrs. Ruth Brown and Miss Evelyn Powell, Mrs. Don Creviston, Mrs. Mary Ekey, Mrs. Gene Hudson, Mrs. Alfred Davis, Mrs. Faye Vestal and Misses Virginia Vance, and Corrine Sens of Marion, Mrs. William Clark, Mrs. Charles Likins, Mrs. L. O. Campbell and Miss Mary Kathryn Stone of Caledonia.

Mrs. Roscoe Retterer and Mrs. E. L. Haley were assistant hostesses when Mrs. Luther Mitchell of the Edison road entertained the Claridon Progressive Farm Women's club yesterday afternoon. The roll call topic was "My Long Distance Letter," and devotions were conducted by Mrs. Merle Anthony. The program included two papers, "National Parks" by Mrs. Chester Trout, and "Dead Letters" by Mrs. Carl Brooklesby. Mrs. Howard Mitchell was a guest.

Mrss B. H. Rice was hostess for a meeting of the Pleasant Township Farm Women's club yesterday afternoon at her home at Owens, with Mrs. Harry Hoch as an associate hostess. Mrs. Francis Warner conducted devotions and quotations from McGuffey's Readers were given in response to roll call. Secret sisters were revealed in a gift exchange, and a program included a group of readings by Mrs. S. L. Surface. Awards in games were won by Mrs. Surface, Mrs. William Ulmer, Mrs. Louise Barthouse, Mrs. Raymond Myers, Mrs. Grover Lichtenberger, and Mrs. Francis Warner. Guests were Mrs. Barnthouse and Mrs. Walter Bailey.

Mrs. Leslie Bunnell gave her husband a surprise birthday anniversary party last evening at their home on the Smeltzer road. Numerous awards were made after an evening of bingo, bunco and euchre. Mr. Bunnell was presented remembrances.

Guests were Mr. and Mrs. Eugene Reith, Mr. and Mrs. Edward Flack, Mr. and Mrs. Raymond Weiser, Mr. and Mrs. Edward Schweinfurth, Mr. and Mrs. Frederick Leffler, Mr. and Mrs. George C. Seiter, Mrs. Emma Bunnell, Mrs. Joel Holliday, Misses Mildred Turner, Mary Mehaffey, Doris Bunnell, Betty Toms, Cora Almendinger, Lucille Bunnell, Shirley Ann Seiter, Patty Ann and Linda Kay Holliday and Marilyn Bunnell, Clifford Seiter and Merle Lust.

A dinner at the home of Mr. and Mrs. Israel Bair of 1248 Ackerman avenue Sunday was in honor of the forty-ninth birthday anniversary of Mrs. Bair. Two birthday cakes decorated the table. Present with the honor guest and Mr. Baer were Mr. and Mrs. Frank Nichols and daughters, Doris, Helen and Mary Evelyn of Jackson, Mr. and Mrs. Francis Harden and children, Margaret, Dolores and Jack of McCombs, Mr. and Mrs. Dale Fundum and daughter, Marilyn Jean, Mrs. Nellie Hood, Mrs. Clifford Richards and children, Mr. and Mrs. William Trago and daughter, Patty, Mr. and Mrs. Henry Bennett and children and Joan Foos, Fred, Edward, Arnold, Myrtle, Agnes, Kenneth and Teddy Bair. The celebrant received a number of remembrances.

Mrs. Ira Bishman of East Church street was hostess when Alpha chapter of Gradale sorority met for a special meeting last evening. Bridge was played, awards going to Mrs. William Bradley, Miss Pauline Shelton. Miss Ruth Washburn was consoled. Members presented Mrs. Richard Thibaut, formerly Miss June Price, with a gift. Serving with Mrs. Bishman as hostess were Mrs. William Collins and Mrs. Willard Henney.

Mrs. Walter Hughes, chairman, was assisted by Mrs. Herman Feldner Jr. in entertaining the Elks Women's club yesterday afternoon at the club rooms. Mrs. B. A. Pierre won honors in contract, Mrs. Lawrence Clark won the prize in auction and Mrs. Paul Saltz won the award for high score in euchre.

Mrs. George Darling, Mrs. Leona Sanderson and Mrs. Curtis Laubner were assisting hostesses for a meeting of the Southwest Mothersingers Tuesday night at the home of Mrs. Lydia Collins of 149 Latourette street. A social hour followed a short business session. Mrs. Damon Spicer received the guessing contest award. A meeting Oct. 15 will be held with Mrs. Leonard Parker of 853 Merkel avenue.

CIRCLE ENTERTAINMENT

Mrs. Sarah Carter and Mrs. Maxine Hoover were guests when Mrs. Clara Oswalt entertained the Rebekah Friendship circle yesterday afternoon at her home on Olney avenue. A social hour and refreshments followed a business session. Mrs. Nora Caylor of Upper Sandusky and Mrs. Geneva Miller received the contest awards.

Women In The News

Politics In The Hair

HERE'S A CAMPAIGN coiffure on the blond head of Debutante Patricia Plunkett. Yep, she's for Roosevelt. That's why her hair style was inspired by the Democratic donkey. The idea is to comb the hair up on the sides to swirl into upstanding donkey ears. The center is brushed smoothly down into turned-under bangs. It's Charles of the Ritz's "For Roosevelt" style.

POLITICAL ENTHUSIASM goes to the head of pretty brunette Olive Cawley. This New York debutante got a political coiffure "after the G.O.P. elephant" to better emphasize her role as a Willkie supporter. The Republican version of headline fashion puts a pompadour in the form of a French roll from crown to forehead. An elephant's trunk is the general effect.

Bricker-Glosser Wedding To Take Place on Oct. 12

ANNOUNCEMENT of the engagement and approaching marriage of Miss Eula Bricker to David Glosser was made last evening when Miss Bricker's mother, Mrs. Elmer Bricker, and her sister, Mrs. Charles Lawrence of Mt. Gilead entertained at the home of the latter. The wedding will take place Saturday, Oct. 12.

Miss Bricker is the daughter of Mr. and Mrs. Elmer Bricker of Prospect, and makes her home at 458½ East Center street here. She is a charter member and past officer of Gamma Mu chapter, Delta Theta Tau, and is employed at the City Loan office. Her fiance, who is the son of Mr. and Mrs. E. E. Glosser of Summit street, is associated with the Crawford Steel Co. in Bucyrus.

The announcement, concealed in corsages of white asters tied with green and white ribbons, was discovered by Miss Virginia Wilson. First honors in contract were won by Mrs. Newell Minard and a galloping award was won by Mrs. Odell Thompson. Miss Bricker received the auction award. Guests included close friends of the honor guest and the party appointments were in green and white, her sorority colors.

He is also department alternate to the Legion convention.

Marion Garden Club's Annual Flower Show Held

FLOWERS in a variety of color and arrangement were shown at the fall flower show sponsored by the Marion Garden club yesterday afternoon and last night at Huber's barn on South Greenwood street. A fair sized crowd of flower growers and those interested in flower arrangements and their beauty attended. No ribbons were given this year and the visitors were asked to vote their choice in one special section. The selection was a white pottery vase filled with red asters arranged by Miss Ruth Starr.

The various exhibits were judged by Miss Laura Beggs of Newark, vice president of the Ohio Association of Garden Clubs. Classifications included arrangements of flowers, fruits or vegetables, specimens, cut flowers, special displays including wall vases, terrariums, decorative cupboard arrangements and cultural perfection.

During the evening colored slides on "Flower Arranging, a Fascinating Hobby," was presented by R. F. Williams through the courtesy of the Coca-Cola Co. The pictures were described in a transcribed talk.

Throughout the evening refreshments were served at White Cottage Inn, a cleverly decorated corner of the barn.

The show was in charge of the following committees: staging, Mrs. Grant Mouser Jr., chairman, Mrs. Pearl Cheney, Mrs. W. A. Dennis, Mrs. David W. Evans, Mrs. Roy Gottschall, Mrs. Philip Guthery, Mrs. O. E. Hamilton, Mrs. Karl Holly, Mrs. Francis B. Huber, Mrs. Francis J. Hurst, Mrs. O. S. Rapp and Mrs. D. J. Shelton; entries, Mrs. Robert White, chairman, Mrs. Frank Foster, Mrs. Howard Geer, Miss May Ella O'Brien, Mrs. E. G. Siefert, Mrs. T. E. Sonnanstine; judge's clerks, Mrs. John Courtright, Miss Ruth Gorham and Mrs. Ray R. King; hostesses at White Cottage Inn, Mrs. Jay H. Maish, chairman, Mrs. J. B. Bray, Mrs. K. M. Bower, Miss Louise Kling, Mrs. Frank M. Knapp, Mrs. Harry J. Mautz, Mrs. Wilbur Symes and Mrs. Fillmore Young.

The club will close the season with its annual meeting in October. Activities throughout the winter will center on the Garden center at the City library which was established this summer by the club.

GRANDSON OF MARIONITES TO WED COLUMBUS WOMAN

Of interest here is the announcement of the engagement of Miss Evelyn Louise Harris, daughter of Don C. Harris of 40 Northridge road, Columbus, and Charles Edward Wilhelm, son of Mr. and Mrs. A. B. Wilhelm of 295 East Dunedin road, Columbus. The announcement was made at a luncheon given Wednesday by Miss Patricia Harris, sister of the bride-elect, at the Maramor. Individual corsages of sweetheart roses revealed the approaching marriage, and later tables were filled for bridge.

Miss Harris attended Ohio State university and is a member of Delta Delta Delta sorority. Mr. Wilhelm, who is the grandson of Mr. and Mrs. C. L. Hart of 589 South Prospect street, and F. W. Wilhelm of 320 Girard avenue, attended Butler and Ohio State universities, and is affiliated with Kappa Sigma fraternity. He is with the Gabriel Steel Co. of Detroit, but will leave in the near future for Washington, D. C., where he will take his bride to live.

Mr. and Mrs. Wilhelm and family formerly resided in Marion.

Marriage Meddlers

By ADELE GARRISON

Lillian and Katherine Wait for the Signal To Transfer Edith's Belongings to New Quarters

"LEAVE HER bathrobe and slippers and a pair of hose by the bed," Miss Whitlock said, when she apparently had decided that even Edith's despondent lethargy was a bit lightened at the prospect of moving to new quarters, and that she would give us no further trouble.

"It's a good thing I'm used to living in a suitcase," she added with a dry little chuckle "I don't have much trouble sorting out my belongings"

"Nor I," I said with an answering smile, and then carried out her last instructions.

All Ready

She was ready and so was I well before the end of the ten minutes she had named Just after her ultimatum to Edith, the nurse had given her some drops which I knew must be a potent stimulant, and had renewed her injunction to lie back, close her eyes and relax Edith was docilely obeying the first two directions, but I doubted how much acquiescence she was role to give the last one

When she had adjusted the last strap, Miss Whitlock straightened herself and looked at me

"Is there anybody at hand who can bring these bags down to your study within the next five minutes?" she asked "I mean after we go I don't want anybody here now"

I considered a second, dismissing Jim working outside the house and Katie, with her propensity for trying to find out things which she was not supposed to know Then I realized that I had no further to go than the corridor outside

'Yes, there is," I said "Wait just a minute"

"As long as you like," she answered "There is no urgency for a few minutes."

But I knew that she wished to get Edith transferred, before the potent drops should have time to wear out, and the knowledge led fleetness to my feet as I rushed out of the door, and whizzed around the corner where I knew Lillian and Katherine were awaiting the result of my visit to Edith and her nurse

Both Alert

They were deep in low-voiced and earnest colloquy when I reached them, and I had the intuitive feeling that I was the subject of their conversation. But as they saw me, their faces registered instant, alert attention

"You look as if things were doing," Lillian commented

'There are," I replied breathlessly 'Miss Whitlock is taking Edith downstairs at once. Left in the room are two suitcases, two small bags, and Edith's outdoor clothing, with a street gown apiece for the two women The nurse's hat and coat, I happen to know, are in the hall closet, so if you will get out the things I have named, the room will be entirely clear"

All Clear

"And soon to be swept and garnished for old Phil Veritzen," Lillian murmured mischievously, then, with a swift glance at my face, which, I knew, mirrored anything but mirth, she spoke with swift, alert co-operation.

"Lead us to the job!" she said, and Katherine nodded her ready assent.

"Just stand here until you hear us moving downstairs—in the next minute or two—" I answered, "then get the things down, and leave them outside my study door. Miss Whitlock evidently doesn't want Ede to get sight of anybody during the trip downstairs—or any other time, for that matter—and Ede especially has asked that you two keep away"

"She has nothing on us," Lillian said caustically. "The further away I keeps from that dame, the better I feels If I never set eyes on her again, it will be perfectly all right with me"

But Katherine's professional instincts triumphed over her dislike of Edith, and her resentment against her because of me

"Is she pretty bad?" she asked.

Ten Per Cent Gain Over 1939 Is Prediction.

By The Associated Press

WASHINGTON, Sept. 19—The bureau of agricultural economics predicted today that industrial production for the year 1940 would show a gain of about 10 per cent over 1939.

Such an improvement, the bureau said, would raise incomes of industrial workers to around the 1937 "post depression" peak or about the average of the 1924-29 period.

Further gains in industrial activity this fall and winter were expected to be developed, the bureau said, by "the cumulative effect of the expanding defense program, the timing of production on the 1941 automobile models, government buying and other factors pointing to a high rate of activity in the textile industries, the prospect for less than the usual seasonal contraction in residential building, and the recent strength in commodity prices."

The defense program was described as already having had a stimulating effect on various industries.

The bureau said that if the European war does not end in the near future, the domestic demand for farm products should continue to strengthen during the remainder of the year. The general export outlook for farm products continued "very unsatisfactory," the bureau said.

THURSDAY, SEPTEMBER 19, 1940

Changes of Heart

LOTS of things quit making sense as soon as politicians begin to distort them. Several fruity examples are to be had for the picking.

Mr. Willkie's insinuation that Mr. Roosevelt had something to do with the Munich pact is being resented warmly by the President's defenders. A great many garden variety Americans also think it's dreadful for Mr. Willkie to say such a thing. The fact of the matter is that when the pact was made, following messages from the White House to Adolf Hitler and Benito Mussolini, New Dealers immediately shouted, "See what our Mr. Roosevelt has done practically singlehanded." Republicans were scared stiff that voters might think Mr. Roosevelt really might be given credit for bringing about what almost everybody, including most Republicans, thought would be a state of peace. But memories are short——

So short that deeply wounded Roosevelt partisans who complain that his critics are blaming him for everything which turned out badly during his administration have forgotten how Roosevelt partisans blamed Herbert Hoover in person for a worldwide depression in 1932 and as recently as July, 1940, in the Democratic convention, professed a strong desire to run their man against Mr. Hoover on the same issue, even though Mr. Hoover wasn't even running. As the philosophical village halfwit used to say: "People are more fun than anything and when they get into politics—Wow!"

We Face Reality

IT ISN'T strange that the reality of America's newly energized and expanded defense is only beginning to be grasped. Even mobilization of national guardsmen still seems like something conveniently remote, though the guardsmen and their families now know how real and imminent the defense program ultimately is going to be for everybody.

According to on-the-scene observers in Britain, there existed there the same difficulty about coming to grips with reality. With no broad Atlantic, nothing but the channel mist, to screen events on the continent from their eyes, Britons yet found it hard to believe they would have to get ready to fight for the things they cherished.

They dawdled a long time. It was almost May of 1939, only four months before the government declared war on Germany, before Great Britain undertook the essential task of raising a conscript army amid bitter complaints that Downing street was seeing things under the bed. The task of equipping the army, begun at leisure, was speeded up during last winter, but the army's first engagement with the enemy in Belgium last May indicated there had been more speed than thought devoted to the matter.

Perhaps the United States never will have to face the ultimate reality of fighting desperately for survival. There is only one possible way in all the world for this country to make sure that such a thing won't happen. That is to come to grips with the reality of preparedness in time. That is what the United States is doing as sons, friends and neighbors prepare to defend American interests.

Playing Fields of America

WHILE shells and bombs continue their deadly tattoo in Europe and other parts of the world, American youth again sets forth on its annual peacetime battle for football laurels. But this year the gridiron season opens on a disquieting note—how long will these peacetime games last?

On the playing fields of America from one end of the country to the other clear-eyed, sturdy youths engage in our national fall pastime—just like British youths once played on the famed playing fields of Eton. Today these same British youths are engaged in the terrifying reality of a struggle to protect their homeland from the onslaught of a merciless enemy and the imposition of a way of life which they abhor. And yet, perhaps one big factor in the unparalleled heroic success which they apparently are having in defending their country is the training of mind and body which they received on England's playing fields.

Millions of Americans this fall will line college and high school playing fields to cheer on our young men to greater deeds on behalf of the old alma mater. But underneath their resounding cheers will be the fervent hope that these youths never will have to face the grim duty forced on Britain's young men.

BARTER SYSTEM

It would be interesting to know, and in some instances possibly embarrassing, how motor cars are acquired and how many of them are paid for. But in these days of debts, drouth and drivel such a thing as a rolling mortgage is insignificant. Not long ago at the courthouse a transaction was recorded showing that a purchaser had given $60 worth of chickens as the down payment.—Wintfield Courier.

News Behind the News

Italy's Progress Reported Slight Despite Mussolini's Published Claims.

By PAUL MALLON

WASHINGTON, Sept. 19—Most devastating secret weapon used so far in this war is not the thousand pound thermit bomb which Hitler has been using on London, but the five thousand pound bombast which Mussolini has been dropping all over Africa. It is commonly expected here il duce intends shortly to decorate the author of the daily Italian high command war communiques with the order of the sticky palm.

For, despite what you read and hear from Rome, the limp end of the axis has been conducting this war strictly in the tradition of his conquestion of undefended Albania and Ethiopa. Private official dispatches confirm the suspicion that the only thing Italians have won so far is what the British did not want.

Paul Mallon

Best literary claims of the entire war to date were given out in Rome when the Italians marched into El Solum, a small desert town on the Libyan-Egyptian border of little military consequence. You would think from the communique they had captured Alexandria, but the fact is El Solum has a very small harbor seldom used in peace-times and not used by the British as a base. Daily since then each parasang of advance along the desert-shore road has been heralded with literary trumpets that make a cub out of Xenophon, first to a town appropriately named "Bugbug" and thereafter similarly to other sand ditches.

Actually the first British base along the road is halfway to Alexandria at a place called Matzuh. The impression prevails here that the British are just letting the Italians string themselves out along this single unwatered road until the task of supplying advance columns becomes difficult, and then the British fleet may let them have it. Practically the whole stretch of road from El Solum to Alexandria is close enough to the sea to be shelled by British ships, and there is no other avenue of escape as all to the south is desert.

Mare Nostrum?

The British claim to have sent several cruisers all the way from Gibraltar to Cairo right under Mussolini's nose without seeing a sign of Italian opposition on the surface or in the air. Only once, immediately after the Italian leader decided the Allies were beaten badly enough to permit him to venture into the war, did a few vessels of the Italian fleet make the mistake of encountering the British. A smokescreen was laid by someone and someone fled. Indication that it was not the British lies in the fact that since then Mussolini's ships have not been heard or seen outside Italian ports. Mussolini's Mare Nostrum seems to be Mare Brittanica, except the British cannot use it much for commerce and the Italians are able to supply their forces in Libya.

Pen Instead of Sword

Mussolini's preference for the pen rather than the sword confirms the inside hints which have frequently reached high official quarters here that il duce has a serious problem of popular morale to deal with at home. It substantiates the belief that the Italian people generally have no stomach for this war. In the absence of fighting and victories, but not of taxes and belt-tightening, their enthusiasm can be kept up for a time by daily rhetorical devastations of the desert. But there is a suspicion here that Mussolini is becoming very impatient with Hitler for failing to win the war for him promptly.

Taylor Report

Not a single word has been allowed to slip out edgewise concerning Myron Taylor's report on peace and war from his Vatican listening post. The report was presented to the President at Hyde Park three weeks ago, yet no inkling has developed even as to whether Taylor is to return to his pence mission.

A thorough indication that he will not is the sub-official talk among New Deal diplomats that Taylor's health is poor and he does not desire to resume the strain of active service.

But far from conclusive evidence is the complete absence of any interest in peace now among this government's diplomatic directors. There is good reason to believe Taylor reported the Vatican working energetically to establish a political basis of peace which would restore the autonomy of conquered nations (presumably France, Belgium, Holland and perhaps Poland). The New Dealers would look on such a peace as a German victory even if it guaranteed cessation of the attack on England.

Clearly this government is not now interested in that and there is no reason to expect Mr. Taylor's health will be permitted to improve officially.

By HAROLD L. ICKES
Secretary of The Interior

WASHINGTON—It was a French moralist—the Duc de la Rochefoucauld, I believe—who once remarked cynically that when a man says he hates women he means a PARTICULAR WOMAN.

I recall this saying in connection with the current third term hullabaloo. When you hear a 101 per cent patriot piously declaim against a third term "on principle," you may be sure that he is against a third term for Franklin D. Roosevelt in PARTICULAR. Many vocal super-patriots thought it a fine thing for Calvin Coolidge to have a third term, but profess to be horrified—"on principle," of course—at the thought of Franklin D. Roosevelt serving another term in the White House.

In May, 1927, a nation-wide poll of 200 leading Republican newspapers, taken by the Los Angeles Examiner, showed most of them favoring a third term for Calvin Coolidge. At the same time the Washington Star polled the members of the Republican National Committee on the same question. Two-thirds of them expressed themselves "overwhelmingly in favor of the renomination and re-election of President Coolidge."

IN THOSE days Republicans were, indeed, ardent third termers — for Calvin Coolidge. Some Republicans, to be sure, were not satisfied with a third term for Calvin Coolidge. They wanted much more. For example, in Sudbury, Mass., the Republican town committee voted 6 to 1 in favor of a life-long presidency for Coolidge, at double salary.

One could cite numerous Republican individuals as having been enthusiastic third termers. The late Chief Justice of the Supreme Court, William Howard Taft, for instance, said that "it would be very satisfactory" if Coolidge were to run for a third term. Mark Sullivan, who has paroxysms of super-patriotic indignation every time he thinks of Franklin D. Roosevelt staying in the White House 60 seconds longer than two terms, used to be an eager third termer. He was all for a third term for Theodore Roosevelt in 1912 and for Calvin Coolidge later.

SECRETARY ICKES

In 1925 Mark Sullivan dismissed the "third term bogie" as unimportant. Finally, no less a patriotic citizen than ex-President Herbert Hoover must be set down as a third termer. In 1927 he favored a third term for Calvin Coolidge. "I still believe as I stated in Chicago two weeks ago," Mr. Hoover said on August 3, 1927, "that President Coolidge should be renominated and re-elected."

The enemies of President Roosevelt are doing their best to confuse and bewilder the people with talk of "dictatorship." They are trying to create the impression that, if he should have another four years in the White House, he suddenly, overnight as it were, would become a Hitler. This is plain and vicious nonsense, as those who are using the argument well know. A President of the United States, no matter how frequently elected, is limited in his powers by well-defined laws, checked by the courts and by an independent (and frequently unsympathetic) Congress—his every move and gesture watched over and reported by a free — (and often hostile) press.

BUT is not a third term a violation of tradition? My answer is that while traditions are important in peaceful and easy times, they can become a millstone around democracy's neck in a period of crisis. Every honest American, from George Washington down, has recognized this. Democracy must be flexible, not muscle-bound, if it is to survive. Thomas Jefferson, by the way, was willing to serve a third term if there was danger of a monarchist (the Fascist of his day) being elected.

In conclusion, I should like to put myself on record as agreeing with Mr. Wendell Willkie, when he said, a short time ago: "Nor do I hold that a country can afford to cling to a tradition for purely sentimental reasons."

ULTIMATUM

From News of Other Years

TEN YEARS AGO

It was Friday, Sept. 19, 1930.

Dr. Bessie L. Pierce of Chicago university declared after an exhaustive study of the subject that textbooks used in schools of this country were decidedly pro-American and in no way caused danger of the youth of the land acquiring disloyal ideas or foreign propaganda.

Miss Edna Surface of Marion avenue resumed her studies at Wooster college, Wooster, O.

Mr. and Mrs. John A. Schroeter and son John of East Center street returned from a 10 weeks' tour of Italy, France, Germany and Switzerland.

TWENTY YEARS AGO

It was Sunday, Sept. 19, 1920.

A daughter was born to Mr. and Mrs. Paul Huling of Thew avenue.

Mr. and Mrs. R. C. Randall and family and Mrs. J. E. Rafferty and daughter Mabel of South Prospect street visited friends in Columbus.

Mrs. Rebekah J. Lindsey, 69, died at her home on Superior street.

David H. Harvey, 62, of South Vine street died in a Columbus hospital.

W. E. Selanders was elected president of the Tri-Township Sunday school association in its annual convention at Waldo.

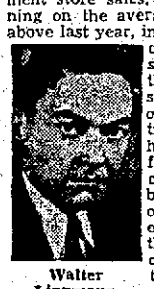
Senator Harding was visited by approximately 100 members of the G. A. R. from Akron who were enroute to Indianapolis to attend a national G. A. R. encampment. They were in Marion about two hours. Members of the Marion Civic association met the visitors at the train with automobiles and drove them to the Harding home where each was greeted personally by Senator and Mrs. Harding... Gov. R. Livingstone Beeckman and Mrs. Beeckman of Rhode Island were guests at the Harding home Saturday and Sunday. Gov. Beeckman reported he had received news of enthusiasm for the Republican ticket from all sections of the country... Wade H. Ellis, former assistant attorney general of the United States, was a caller and said, "Every day of the campaign brings renewed testimony to the wisdom of the Republican choice for president." Maj. Henry S. Hooper of New York, another visitor, said the result of the election was already assured and that Harding and Coolidge would sweep the country overwhelmingly... Howard E. Greene, secretary of the National Sheep & Wool Bureau of Chicago, conferred with Mr. Harding on the "pure fabrics" law.

Today and Tomorrow

New Economic Problems Expected as U. S. Defense Program Progresses.

By WALTER LIPPMANN

ALTHOUGH the full effects cannot yet be felt or measured, it is evident that the British war orders and the American defense contracts have already begun to exert an influence upon our economic life. It is reflected in the sharp increase in department store sales, which are running on the average 10 per cent above last year, in the registration of new passenger cars, in the very considerable increase of railroad freight traffic, in the heavy demand for copper, zinc, cotton, and lumber, and in many other fields. The evidence shows that the vast purchases first authorized by the Allies and then later by the United States government are no longer in the stage of paper contracts and blueprints at Washington and New York; they are beginning to make work, and to employ labor and to pay money. Yet this is obviously only the first beginning of the immense effect which these enormous expenditures will produce. It is the easiest and pleasantest phase of the armament boom, easiest because for the most part it merely takes up the slack, the pleasantest because it is the phase in which we get more guns and still get more butter.



Walter Lippmann

Change Inevitable

It is a phase which is bound to pass. The time must come when the defense program passes from being a gigantic pump-primer into being the main engine which must be kept going by giving it priority in raw materials, tools, and labor, by reducing through taxes and other devices, the consumption of civilian goods. Only in its earlier phases, that is before the real expansion is under way, can the defense program be an adjunct to business as usual. When the real expansion is under way, the program is destined inevitably to be the dominating factor in all the chief markets for materials, capital and labor. As the authorized expenditures begin to be actual expenditures, as they rise from a tenth or less to a quarter or more of the national income, the really difficult problems of a defense economy will be with us.

These problems are of two general kinds: one, which is the more immediate and urgent, is how to speed up national defense production as efficiently as possible; the second, which must be continually kept in mind though it is in the far distant future, is how to demobilize this defense economy if any when real peace is eventually restored. The first is the problem of how to change from a predominantly civilian to a predominantly military economy; the second is the problem of how to change back.

The first of these problems will be with us as soon as we have finished the relatively easy stage of signing contracts for warships, airplanes and all the other equipment. For then there will begin to arise the question of priority; that is to say, the question of how to make sure that the defense industries get first call upon supplies of raw materials, tools, transportation, skilled labor, managerial and technical ability and credit. The administration of priorities is the crux of the whole business, and inevitably it requires, compulsion, direct or indirect, quite sound. The best they would be to give their theories as to attitudes a "family man." We rathe that some of these theories would far-fetched as opposed to the realit situation.

The War a Year Ago

SEPT. 19, 1939

By The United Press

Adolf Hitler, in Danzig speech, asserted he had no war aims toward France or Great Britain and that Germany wanted "lasting peace."

Germany reported capture of 50,000 Polish prisoners, with much booty, in section north of Lodz.

Fighting around Warsaw continued fiercely.

Queen Wilhelmina declared the Netherlands was ready to protect its stand of neutrality, but hoped peace still could be reached.

British trawlers Lord Minto and Arlita sunk; British ship Aviemore torpedoed and sunk.

WE WILL give some kind of a prize wife who furnishes us with the b inition of the term "family man," a something to the gent who, by the ena his wife, in our judgment best fits the tion. We will give him a plaque, or some other trophy not too dag-goned expensive as a permanent memento.

Damon

One reason for this colossal offer is that we are seeking the champion American "family man." To find him we must first learn just what, in the opinion of wives, constitutes a "family man." For years we have been hearing the term applied to citizens in the sense that they are men with wives and children and who spend much time around their homes, but we are not satisfied.

We know men who could be called men" just on the basis of having fam sticking close to the family circles, are not popular in those circles—who in fact, would be preferred to their The wife of a man who has some not his acquaintances as a "family man" not long ago that the only reason he around home a great deal was that h stingy to go anywhere else.

A WIFE is naturally the best author man as a "family man." Better children and certainly much better neighbors. The latter see only the s events.

A man may achieve high reputatio the neighbors as a "family man" by regular hours and maintaining a sur pearance of love and devotion to hi He may fool the children, but he ne the wife.

She is the one who knows the true his feeling for his home and his far knows how much of it is genuine much is phoney and for what purp phoney. A man may pretend to feel for his home and family for purely se sons—for "face" in his community, or cal purposes.

In the United States of America, tion as a "family man" is highly pri ically. CALEDONIA MAN HELD AS PAROLE VIOLATOR

Confesses Breakin at Home Near Marion, Sheriff Says.

John Persinger, about 35, of Caledonia has confessed to entering the E. N. Bailey home on Route 98 east of Marion last month and is now held at the county jail as a parole violator, Sheriff Fred F. Miller and Deputy Gene Geissler announced today.

Deputy Geissler and a parole officer arrested Persinger yesterday near Caledonia. He confessed to taking five straight razors, three hand clippers, a strop and two hones from the Bailey home and then disposing of them in West Virginia, officials said.

He is expected to be returned to Ohio penitentiary early next week. Sheriff Miller said Persinger was originally sent to the penitentiary on a breaking and entering charge and had been returned once before as a parole violator.

MRS. MAUDE KIENTZ OF CARDINGTON STRICKEN

Illness Fatal to Woman Prominent in Club Work.

Special to The Star

CARDINGTON, O., Sept. 19—Mrs. Maude O. Kientz, 54, one of Cardington's best known women residents, died yesterday at White Cross hospital in Columbus following a cerebral hemorrhage. She was taken ill two weeks ago.

A member of the Cardington Methodist church and active in all its women's organizations, she twice served as head of the American Legion auxiliary and was a past president of the Current Topic and Music and Drama clubs, the two largest women's study groups in the community.

Her husband, John Kientz, is head of the Boy Scout movement in Cardington and is the community head of the annual Red Cross roll call.

Besides her husband she leaves five sisters and a brother, all in the west. She was born at Star City, Ark.

The funeral will be conducted Friday at 2:30 p. m. at the Curl funeral home, followed by burial in Glendale cemetery.

Draft Blanks Ask More Than 100 Questions

More than 100 questions will be asked of the 16,500,000 men of 21 through 35 who will be required to register for military service on Oct. 16, according to The Associated Press.

Although the questionnaire has not been drafted in final form, the war department says it will follow closely the pattern of a sample questionnaire prepared some time ago for use in case of war. The sample, which will be modified to suit the present peacetime situation, states flatly that the "nation is at war and every registrant is thus put on notice to know his position and duty." Since this is to be a peacetime draft, the war department says the "nation-at-war" phrase will be eliminated.

Present plans call for distribution of the questionnaires soon after registration day and for their return within five days. On the basis of the replies, the local selective service boards will determine the classification of registrants. Some will be deferred and others will be marked as eligible or immediate service.

Sample Questions

Sample questions follow:

Have you any physical defect?

Are you single, married, widowed or divorced?

In what calling, if any, is your wife trained or skilled?

To what country do you owe allegiance?

What is your usual occupation?

What previous military experience have you had?

Which languages do you speak?

Has your wife ever been employed?

Does your wife live with your parents or her parents?

State your total income from all sources during the last 12 months, in cash and in other things of value?

Have you filed any income tax report within the last year?

State net income, during the last 12 months, from any property held in trust for you.

Do you or any of your family or dependents own the house in which you live?

State the name of each of your dependents who owns the house in which he (or she) lives.

If you rent the house in which you live, state the monthly rent and the name and address of your landlord.

What is your occupation?

What is the name and address of the enterprise with which you are connected?

What is produced or what service is performed by the enterprise?

Questions Concerning Work

State your connection with the enterprise.

What part of your working time do you give to the enterprise?

What work do you do?

State your education, training and experience for the work you are now doing.

How long have you been connected with the enterprise?

How many persons are doing the same kind of work that you are in the plant where you work?

Have you a relative or some other person who could take charge of your occupational interests if you are called into service?

Are there any other things (including hobbies) that you do well?

Questions for Farmers

Questions applying to those in agricultural occupations include:

How many years have you been engaged in agriculture and what special training have you had?

State your relation to agriculture, as laborer, overseer, hired manager, share cropper, renter, owner, etc.

What part of your working time do you give to the agricultural enterprise?

Are you now living on any of the farms with which you are connected?

If you are a renter or share cropper, when does your lease or agreement end?

If you are part owner of the farm, state your interest, the name, age, address, occupation and extent of interest of each co-owner.

Explain fully how you operate your farm.

State the quantity of each product of the farm produced during the last 12 months.

State for each crop the number of acres cultivated.

State the quantity of each farm product consumed by the persons and live stock on the farm during the last 12 months.

State the number of each kind of live stock on the farm and the number of each kind sold during the last 12 months.

Why cannot any one or more of your relatives, or some other person, continue your farm operations during your absence?

Aliens' Questions

Additional questions for those who are not citizens of the United States follow:

To what country do you owe allegiance?

State date and place of birth.

In what countries, and how long in each, did you reside before the outbreak of war?

Have you taken out first papers, that is, declared your intention to become a citizen of the United States?

If so, state when, where and in what court?

State your birthplace and present residence of your parents.

How long, if ever, has each of your parents resided in the United States?

If either or both of your parents are naturalized citizens of the United States, state when and where each was naturalized.

Have you ever voted or registered for voting anywhere in the United States? If so, state when and where.

Do you desire to withdraw your intention to become a citizen of the United States? (A citizen or subject of a country neutral in the present war, who has declared his intention to become a citizen of the United States, may be relieved from service in the public armed forces by withdrawing his intention, but such action shall forever debar him from becoming a citizen).

Court Record Questions

The following questions are asked regarding court records and are considered confidential, except for use by government officials.

Have you ever been convicted of a crime? If so, state name of crime, date of conviction (approximate), name and location of court and sentence imposed?

Are you now in jail? If so, are you awaiting trial or serving sentence?

Are you on ball, probation or parole?

Religious Convictions

Registrants claiming religious conviction against war are asked:

Of what well-recognized religious sect or organization, opposed to war, are you a member?

When did it adopt opposition to war as a part of its creed?

Give name and address of your particular church or organization.

When, where and how did you become a member of such sect or organization?

Queries for Ministers

Ministers of religion must answer these:

State when, where and the manner in which you became a minister of religion.

State place and nature of your religious labors.

Have you any other occupation?

Are you now authorized to promulgate the doctrines of your religion?

New York's mayor, F. H. LaGuardia, has had 13 official residences since he took office.

DR. W. F. HALEY DIES AT SISTER'S HOME

Retired Chicago Physician Is Stricken; Rites Saturday.

Dr. William F. Haley, 78, died last night at the home of his sister, Mrs. Arah M. Oborn of 244 Windsor street after a long illness.

Failing health forced him to retire five years ago after nearly 50 years as a practicing physician in Chicago. Since his retirement he had made his home with his sister.

Dr. Haley was born in Claridon community on Feb. 2, 1862 to the late William W. Haley and Jane Owen Haley. In 1885 he went to Chicago to study medicine and four years later was graduated from Chicago Homeopathic college.

He was a member of Claridon Methodist church and the Masonic lodge in Chicago.

Surviving are the sister at whose home he died and three brothers, George E. Haley, Emerson O. Haley and Merrick C. Haley, all of Marion county.

Funeral service will be conducted Saturday at 2:30 p. m. in Claridon Methodist church. The pastor, Rev. B. P. Angle, will officiate. Burial will be made in Claridon cemetery. Nephews of Dr. Haley will serve as pallbearers. Friends may call at the Merle H. Hughes funeral home on Mt. Vernon avenue until 12 noon Saturday.

INITIATION HELD
One application was balloted on and accepted and three candidates were obligated at a meeting of Marion Circle No. 184, Protected Home circle last night. Construction Work Started at New Marion Outdoor Recreation Center

Ice Skating in Winter, Tennis in Summer, Scheduled at Grounds Near Crystal Lake.

Building construction has started for a year-around entertainment center south of the Crystal Lake park pavilion, including ice skating during the winter months and tennis during the summer.

A Marion business firm which will sponsor the center under the name, "The North Pole," has leased the ground from the Crystal Lake Park Co. A manager is to be named later.

Skating Rink

The skating rink, which will be 315 feet in length and 140 feet wide, large enough to accommodate as many as 500 skaters at one time. The ground has been leveled to permit even freezing of ice, and equipment is being installed for flooding the area as needed. Several buildings are being constructed and work is to get under way soon installing a large open fireplace, lights and amplifying equipment for music.

The area leased for the entertainment center is located at the intersection of Routes 23 and 4, at the south end of the Crystal lake property and parking facilities are being provided on the south and west sides of skating rink. The rink will be of the open-air type, enclosed by a wire fence so that spectators may watch the skating from their parked cars.

"Warming Room"

A large frame building located between the skating rink and the parking area on the west side will provide facilities for refreshments, a check room and a "warming room where skaters can find shelter against low temperatures.

Plans for freezing the skating area call for flooding the ground with shallow water, the depth depending upon the weather and freezing conditions. In this way danger of "falling through" thin ice is eliminated and skating will be possible whenever the temperature is below the freezing mark.

During the summer months the skating area will be converted into tennis courts, badminton courts and shuffle board courts.

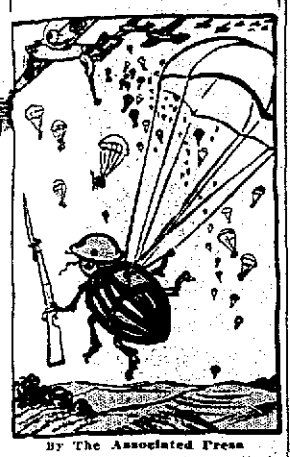
Potato Bugs!



By The Associated Press

German sources charge that British airplanes have been dropping bags of potato bugs in fields of Germany, Belgium and Luxembourg.

Provided the bugs retain their vigor after being crowded into bags and dropped from speeding planes, such a campaign would hit a vital German food supply.

Potatoes are important in Germany, as they are in all northern European countries. Germany has ranked second to Soviet Russia in world potato production.

The "Colorado potato beetles," which the Germans charge are being dropped in their fields, reproduce rapidly and are difficult to control. They attack various forms of vegetation besides potatoes.

The Front Comes to Newsmen in This War

By The Associated Press

LONDON—In the kind of "total war" raging over Britain today, the Associated Press employes don't have to go to a distant front. The front comes to them. It's their office and their doorstep, their automobiles or the bus or tube they're riding in. It's everywhere they move.

And the "men at the front" may be any of their neighbors, their tailor, favorite bartender or waiter, the cop on the beat, the watchman or charwoman, bus conductor or insurance clerk.

Now you see them, now you don't, as the air raid sirens scream and the city of dreadful nights resounds to the rumble of explosions and the crump and crash of bombs and falling walls.

When you're in London you're inescapably a part of it. Everywhere you hear stories. Here are examples of a few Associated Press staff experiences:

Ignorance Is Bliss.

Dwight Pitkin, native of Altamont, Ill., reporter: "There's something in the old saying about the folly of wisdom where ignorance is bliss—particularly when it comes to distinguishing the noises that keep you awake at nights in London.

"Coming out of a theater during a night attack I saw searchlights playing over an angry red sky. Anti-aircraft guns were blasting away and I heard the occasional crump of a bomb. I grabbed a taxicab and we sped away.

"All of a sudden there was a flash and a blast that swerved the cab. But there was no debris. I thought it must have been an anti-aircraft gun, and I said so to the driver as we reached my hotel.

"'That was no gun,' he said. 'No guns in that part of town. That was an incendiary bomb. Didn't you notice the blue white flash?'"

Tom Yarbrough, Oklahoma City, Okla., reporter: "The plane bringing me from Ireland last week crossed the channel seven times in two days before it was able to land safely. Then things moved fast. I waited outside commons until the all clear signal to hear Prime Minister Churchill. Two days later as planes circled over the center of London, I stood on an apartment house roof and watched the puff of smoke grow to a gigantic glow, then taxied to the scene of the fire.

Watches from Rooftop.

I heard time bombs exploding startlingly close. Back on my rooftop observation post that night I watched the silhouetted panorama flecked with intermittent flashes. The whistling scream and an earsplitting crash seemed to be next door, although actually it was a mile or more away. But I took a belly landing and since then have been learning to do without sleep, and without buses and taxis.

Reporter Hugh Wagnon, native of Calvin, Okla.: "I've got a bandage over my left eye and another around the left knee. Everybody asks, 'air raid casualty?' and laugh when I say "No, I missed the bus.'

"But that's what happened. I fell trying to catch one and was fixed up in a hospital. After changing my torn clothing the air sirens sounded. From the roof I saw fires in the dock area, luckily managed to snag a cab, picked up a photographer and hurried to the scene.

"Firemen were playing jets of water on great fires as new explosions rent the air. One landing particularly close clinched the argument of police to take cover on one side of a brick wall. After returning to the office I wrote my story before remembering, ten hours after the bus accident, that I hadn't had dinner and that knee and head were throbbing with pain."

Hard on Wind and Knees.

Edwin Stout, Winterset, Iowa, reporter: "The war's getting my wind and my knees. I spend most of the night running up and down stairs from our office shelter in the basement to the roof where I take looks at the raids.

"An incendiary bomb landed in a street 50 yards from me Saturday night. Tuesday night I was walking to work around midnight and ducked into a shelter when the bombing began to get heavy. Going out a little later a policeman started me off on the last mile with the reassuring note, 'Go at our own risk. Our guns are firing tonight.' They were, all right, all right."

Godfrey Anderson, English-born reporter: "I didn't like that moment on my way to the fire started by incendiary bomb behind St. Paul's cathedral. The sudden whine of a high explosive bomb started me sprinting up a side street. I hoped I was running away from that bomb, but I may have been running the wrong way. I couldn't find any shelter clear of plate glass, so I lay down face down on the pavement. Just as I did I became acutely conscious I had automatically hitched my trousers to preserve the crease. The whine of that bomb seemed to last half a minute."

Drew Middleton of New York, reporter: "Last night after dinner a fellow asked me to go to his flat for a drink. But I thought a little sleep would be better. I'm just as glad I didn't go. The block of flats where he lived was hit by a bomb a couple of hours later. The fellow who asked me to go was pretty well shaken up. I guess that's the closest escape I've had unless living in London since last Saturday and being alive to write about it is an escape. I guess it is at that. Incidentally I didn't get any sleep."

FARM YOUTH TRAINING COMMITTEE APPOINTED

A group of Marion county men have been appointed advisors in charge of National Farm Youth Foundation activities in the county. They are Fred E. Guthery, Robert E. White, John J. Stafford, County School Supt. D. T. Mills, and the following vocational agriculture teachers: R. E. Young of Prospect; M. C. Schmidt of Pleasant township; A. J. Bishop of Morral; C. B. Casto of Green Camp and L. A. Phillips of Waldo. The announcement was made by Grover C. Snyder, Marion county agent for Ford tractors and the Ferguson-Sherman Mfg. Corp. of Dearborn, Mich., which sponsors the *foundation*. The *foundation* was established recently for the purpose of providing a specialized education, personal training and practical experience to young men on American farms.

The Stars Say—

For Friday, Sept. 20

A DIFFICULT, disturbing, perhaps distracting day, according to the adverse chain of several planets. However, there are *signs offsetting these trials* and miseries by meeting all obligations with rigidity, honesty and willingness, then wiping off the slate and getting a fresh start and under very encouraging auspices. But this reorientation should be attempted with poise, not passion, with a view to maintain harmony, in both business and personal readjustments. Placate superiors and elders. Find those of position and financial power ready to promote worthy enterprises.

Those whose birthday it is, by prudence, poise and harmony may convert difficult, harrowing and unhappy circumstances into constructive, expansive and pleasant prospects, with support of elders, superiors, employers or those whose financial promotion and friendship are vital. But meet all obligations cheerfully, before essaying this newer and happier course of action. A very expansive, agreeable and cooperative condition will prevail in all logical and worthy plans for readjustment.

A child born on this day may possess sterling charter, with probably many ups-and-downs and challenging adventures to tax and strengthen it.

Operating on the principal of Venetian blinds, screens having slats made by flattening fine wires have been invented for use outside windows that admit light but deflect the heating sun's rays away from the glass.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Correction

Because of an error made by the news picture syndicate sending out the draft questionnaire copy published yesterday in The Star and other newspapers throughout the country, it was represented as a reproduction of the questionnaire to be used in the conscription program scheduled to start next month.

The form published yesterday was instead the one used in the World war conscription in 1917. Information to that effect was telegraphed to newspapers by the picture syndicate yesterday afternoon, but too late to make corrections in yesterday's editions.

GALION ATHLETIC GROUP REORGANIZED

Supt. O. E. Hill Named President of School Body.

Special to The Star

GALION, Sept. 19—Reorganization of the Galion High School Athletic association was effected Wednesday at Senior high school when O. E. Hill, superintendent of schools, was elected president and Robert Brown, one of the new coaches, was chosen secretary. Maurice Miltenberger, school treasurer, will serve as treasurer of the group. A report showed a bank balance of $301.72.

Faculty Manager Charles Aplas and his assistant E. R. Pickering, reported on plans of advertising.

It was announced that the Galion Downtown Coaches association will send the high school band on one of the out-of-town football game trips, while the athletic association will sponsor another trip for the band.

The association also discussed plans to meet with a group of Galion physicians to determine the method to be used in securing medical care for injured football players.

Walter Sindlinger and Wendell Byrnes, faculty members, also attended the meeting in the interests of the organizations which they represent.

BURGLARS RANSACK 2 MARION SCHOOLS

Desks Looted, Doors Pried Open; Little Loot Taken.

A small amount of loot, including a pistol, was stolen in burglaries last night at Central Junior High school and North Main Street elementary school, police reported.

Officers said that evidence found at the buildings indicated both break-ins were committed by the same parties.

At Central Junior, the intruders broke two windows, pried open several doors and ransacked teachers' desks in eight rooms. A gun used to shoot blanks at basketball games was stolen from a desk in the office of Principal W. E. Orcutt which was entered by breaking a small pane of glass from a door between the office and a corridor. Mr. Orcutt reported that teachers had not completed a check-up of their desks but that apparently the loot was small.

Most of the desks were rifled in the back building where entrance apparently was gained through an unlocked basement window, police reported. Entrance to the front building was gained by breaking glass from a first floor window.

At North Main Street school, loot included a small watch owned by one of the teachers and approximately $2, Principal Stuart Shipman reported. Desks of several teachers were rifled and a locked door leading from a corridor to Mr. Shipman's office was removed from its hinges. Mr. Shipman said the intruders also attempted unsuccessfully to pry open a supply room door.

Police reported that entrance to the building apparently was gained by breaking a basement window.

INDICTMENTS AGAINST TWO DROPPED IN CO. COURT

Action Taken In Cases of Orton Rollison and Addison Hartle.

Indictments against two men, one for arson and one for breaking and entering, have been dropped in common pleas court, it was announced today. The action was taken at the request of Prosecuting Attorney Paul D. Michel.

The cases were:

Orton Rollison of Columbus, accused of breaking and entering the Avenue Lumber Supply Co. on Bellefontaine avenue on Sept. 29, 1938. Court officials said Rollison is now believed to be serving a sentence in the Ohio penitentiary as a parole violator. He was taken to the penitentiary shortly after being charged with the Marion crime. Records show he confessed to a series of about 30 central Ohio break-ins committed in about six weeks.

Addison Hartle of Bennett street, accused of arson. Officials said Hartle had been acquitted of an assault and battery charge, involving the same set of circumstances as the arson charge, and hence further prosecution seems unwarranted.

Hitler Turns Eyes Toward South As Invasion Drags

By DEWITT MacKENZIE

Signs multiply that Hitler, foreseeing the possibility that he may have to postpone his projected invasion of England, is preparing to cast his weight into the battle of the Mediterranean with Mussolini in an effort to crack the British empire from this fresh point of assault.

Britain's domination of the Mediterranean is, of course, one of the imperial foundation stones. It ranks next in importance to the security of mother England herself—indeed, it might be argued that the two are of equal moment.

As I see it, should this new strategic move be made Hitler will continue his efforts to reduce the British Isles to impotence by bombing. In particular he will try to force capitulaton of London or level this ancient capital.

Invasion Not Abandoned

There is no indication that he has as yet abandoned his dangerous scheme of invasion, although he is hard pushed by the circumstance that time and tide of the English channel wait for no man—not even the Nazi fuehrer. In any event he cannot relax his air assault and thus aid England to strengthen its position. He still has vast power to throw to the assistance of his partner.

Support for this idea of a shift in tactics is seen by many observers in Nazi Foreign Minister Von Ribbentrop's arrival in Rome today for a conference with Mussolini.

It would be hard to believe that Spanish Generalissimo Franco's actual participation in the war isn't under discussion. However, in view of his country's great weakness as the result of the civil war, it might be that he would be asked to make his initial contribution a grant of bases in his territory for German and Italian operations against Gibraltar and the western Mediterranean.

Oil Supply Needed

In connection with the battle of the Mediterranean, one of America's foremost petroleum authorities tells me he is absolutely confident that the Berlin-Rome axis is being forced to push this campaign because of grave shortage of lubricating oils, without which manufacturing must collapse.

He says the situation is so bad that if Hitler and Mussolini can't smash Britain within the next four or five months, thereby breaking the blockade, they will be faced with the absolute necessity of capturing the great Iraq oil fields, now controlled by England.

Possession of the Iraq fields naturally would be of small value to the axis unless it had transportation through the Mediterranean. This means control of that sea.

LONDON

(Continued from Page 1)

a continuous hammering, Nazi raiders loosed tremendous loads of TNT and a new type of explosive fire bomb, causing heavy damage and mounting casualty lists.

A government communique tentatively estimated 90 persons were killed and 350 severely injured in the city. This compared with 306 killed and 1,937 injured the night of Sept. 7.

From nightfall Tuesday until today's dawn, Londoners had been under alarm fully two-thirds of the time, and military attaches agreed that the protracted air bombardment now has exceeded any ever directed against a city—from Madrid to Rotterdam.

With the German attacks thus sharply intensified—London had eight raids yesterday making a total of 103 for the war—the British censors today suddenly forbade publication of the times, both starting and ending, of new raid alarms.

The ruling will prevent the outside world from knowing immediately when the capital is being attacked.

Worst Raid Yet

Associated Press reporters who went through last night's raid at its height said it was much heavier than any previous in London, even though the estimated casualty list had been exceeded.

But the British were not idle. The air ministry announced that royal air force fliers delivered a terrific assault on German concentrations in "invasion points" on French and Belgian coasts, including a "big attack" on the big French port of Le Havre and raids on Boulogne, Calais, Dunkerque and Ostende.

"Invasion parts and shipping and barges" were attacked, the ministry said, as well as "marshalling yards in Germany and enemy-occupied territory.

The 12th successive nightlong raid on London lasted nine hours and 34 minutes, starting at 7:54 p. m. (1:54 p. m. Marion time) Wednesday and ending at 5:28 a. m. today.

The record alarm—nine hours and 54 minutes—began the intensified siege at 8:06 p. m. Tuesday. Of the 33 hours and 22 minutes between that hour and all-clear at dawn today, the city was under alarm 22 hours and 53 minutes.

The new incendiary bomb used by the Germans was said by rooftop observers to glow dully for about two minutes and, upon explosion, send sparks and flaming debris hurtling through the air.

Britain also was using a new weapon—a new secret defense against night raiders which the press asserted had "succeeded in bringing down bombers in certain circumstances, for instance in defense of small sites." The weapon was said to be not a gun, ray, or balloon, but simple and cheap to manufacture.

MARION CO. BANKERS AT GROUP MEETING

Hear Talk by State President at Mansfield Session.

About 25 Marion city and county bankers attended the annual meeting of Group Six of the Ohio Bankers' association yesterday at Mansfield. More than 200 bankers were present.

A closer relationship between the local banks and the local communities of Ohio was urged by J. D. St. John, vice president of the Toledo Trust Co. and president of the state association. He cited current records showing that during last year local loans had increased to where Ohio banks had extended credit in more than a million and a half cases with a total of more than two billion dollars. He urged that local communities go to local banks first in seeking financial service.

Principal speaker last night was Phil S. Hanna, editor of The Chicago Journal of Commerce. Others on the program were: A. G. Brown, manager of the Agricultural Credit department of the American Bankers association, David M. Auch, secretary of the bankers association and Rodney P. Lien of Columbus, state superintendent of banks.

New officers elected are Paul M. Eliot, secretary-treasurer of the Farmers Savings & Trust Co. at Mansfield, chairman; Paul A. Warner, executive vice president of the Knox County Savings bank at Mt. Vernon, vice chairman; W. B. Kuhn, cashier of the Citizens bank at Shelby, secretary-treasurer.

In addition to the Marion county representation bankers were present from Ashland, Crawford, Erie, Huron, Knox, Morrow, Richland and Wyandot counties.

BRITAIN LOOKS TO U. S. FOR MORE FARM GOODS

By The Associated Press

WASHINGTON, Sept. 19—Great Britain, because of difficulties in maintaining plant operations and storage supplies under the stress of intensified German air raids, may turn to the United States for increasing amounts of processed farm commodities, the agriculture department said today.

Products affected, the department said, would include lard, meat, canned goods and other processed foods.

Morrow County Man Wins $750 In Nationwide Essay Contest on China

Richard Curl, 23, son of Mr. and Mrs. T. C. Curl of southwest of Denmark, was one of three winners of cash prizes in a nationwide essay contest on China, it was announced Wednesday night by Lowell Thomas on his regular 5:45 broadcast. Curl will receive $750 in cash for his entry on the contest theme, "Our Stake in the Future of China." The contest was open to all college students in the United States.

Mr. Thomas broadcast from a banquet table in the Ford building at the New York World's fair. The dinner, given by Henry Ford, was attended by a group of notables and the three contest winners.

First prize of $1,200 in cash and a trip to China by airplane was won by Miss Minerva Dessing of the University of Pennsylvania, who won her master's degree for research on the Near East. The other winner was a young woman from California.

According to Mr. Thomas, the contest was sponsored by William B. Pauly, whom he hailed as "the world's leading aviation pioneer," having mapped skylines in North and South America and the Orient.

Judges

Among the distinguished men and women who acted as judges were Secretary of the Navy Frank Knox, Mrs. Pearl Buck, William Allen White, Roy Chapman Andrews, Mrs. William Brown Maloney, Theodore Roosevelt, Henry Luce and Mr. Thomas himself.

The guests at the banquet included representatives of Mr. Ford, Sir Hubert Wilkins, Mrs. Buck and Miss Anna May Wong, screen actress.

The three winners did not know before the broadcast who would receive first prize. Mr. Thomas heightened the suspense by going on with his regular newscast and commenting on various phases of the contest. He named the first prize winner only a few minutes before the end of his broadcast. Miss Dessing spoke briefly.

Edison Graduate

Mr. Curl graduated from Edison High school in 1935 and from Ohio State university in 1939. Last spring he received his master's degree in political science at Ohio State and won a fellowship to Princeton university at Princeton, N. J.

Saturday of this week he will enroll at Princeton to work for his doctor's degree in political science. He worked his way through Ohio State university and was a member of the Tower club.

DEFENSE IS WILLKIE'S THEME FOR TONIGHT

G. O. P. Candidate To Speak in Los Angeles.

By The Associated Press

ABOARD WILLKIE TRAIN ENROUTE TO LOS ANGELES, Sept. 19—After calling throughout southern California for reelection of Sen. Hiram Johnson as a "great fighting, fearless liberal," Wendell L. Willkie traveled to Los Angeles today to amplify his views on domestic issues.

Although the Republican presidential nominee did not disclose in advance the exact subject for an evening address at the coliseum, his day's program contained a hint that he might discuss the relation of the defense program to American industry. The evening talk (at 11 p. m. Marion time) will be broadcast by the NBC red network and the Mutual-Don Lee system.

His schedule allowed time to visit the airplane plants of North American Aviation and the Douglas Aircraft company.

At the former, ceremonies were arranged for christening an advanced army training ship, described in a folder issued by a southern California Republican committee as the first craft delivered under the defense program.

Willkie touched on preparedness last night on a speech near the home plate of San Diego's baseball park.

"If we are to defend this country," said a prepared excerpt, "we must put our defense in charge of men who know industry and who can get the job done for us without talking.

Willkie told the crowd, which more than filled the park's 10,000 seats, that "there isn't anybody in this audience who couldn't have failed just as completely as President Roosevelt in building a defense program, for we have none."

REPUBLICANS

(Continued from Page 1)

"We have driven the rackets, chiselers, fixers and political mildemen from the public arena in Ohio. • • • We have cleaned up the mess inherited from the previous administration."

Referring to the "no new tax" pledge, Governor Bricker said "If business conditions continue to improve, we shall even be able to reduce the taxes after the Davey debt is paid."

Mayor Harold H. Burton of Cleveland, Republican U. S. senatorial nominee, criticized the "dictation" in the renomination of President Roosevelt.

Electors Chosen

Republican presidential elector candidates chosen were:

Myers Y. Cooper and Louis Richter of Cincinnati; Charles D. Lane of Dayton; E. E. Jackson of Celina; Dr. I. D. Edgar of Defiance; Mrs. Clara Andre of Waverly; Charles Waggoner of Lebanon; R. B. Dunn of Findlay, Mrs. Harry Chamberlain of Toledo; O. E. Vollenweider of McArthur; Adolph Raab of Lancaster; Harry C. Arnold of Amlin; Earl R. Frost of Tiffin; Mrs. Lenora Peter of Akron; Fred H. Johnson of Zanesville, Russell D. Muck of Canton; Milton Scarborough of Nova; Dan Van Pelt of Carrollton; Hosea Hill of Ashtabula; Thomas F. McCafferty, Rev. Glenn T. Steele and David S. Ingalls of Cleveland, and the following at-large: Mrs. Wilma Sinclair Levan of Steubenville, Daniel C. Brower of Dayton, Fred W. Danner of Akron and John E. Galvin of Lima.

OHIO GUARD AWAITS MOBILIZATION WORD

By The Associated Press

COLUMBUS, Sept. 19 — Ohio national guard officers waited today for some word from the war department defining where and when troops of the 37th division would mobilize for entrainment to a year's drill at Camp Shelby in Mississippi.

The guard was ordered Monday by President Roosevelt to join thousands of other soldiers in defense training. The troops will report Oct. 15.

Adj. Gen. Gilson D. Light of the Ohio guard said he had submitted three mobilization plans to the war department and expected one to be approved shortly. About 10 days will be necessary for rigid physical examinations of the guardsmen and issuance of equipment after the mobilization details are announced.

To offset the anticipated rejection of 2,100 members of the guard because of physical unfitness or dependencies, guard officials pressed efforts to fill the vacancies with new enlistments.

A "weeding-out" program of men not fit physically" has been under way several weeks, a spokesman at the adjutant general's office said. The loss will include about 200 officers, but little concern was felt since most commissioned posts can be taken over by enlisted men commissioned in the National Guard of the United States.

The spokesman said that all officers under the rank of captain who have dependents would be allowed to resign 20 days after being mustered into service. This probably will cut the ranks as greatly as physical unfitness.

The 37th division will remain intact during the year's training period at Camp Shelby, the adjutant general's office announced.

SPRINGFIELD CRIME CLUES FOUND BY MARION POLICE

Man and Two Women Held as Assault-Robbery Suspects.

Police yesterday were called into a robbery investigation at Springfield involving an elderly Springfield railroader and a sales demonstrator who was to have come to Marion this week-end.

Although details of the case were not available today, authorities here said they understood that the demonstrator and two Springfield women are being held on charges of injuring and robbing the railroader of $180 and a watch in an aftermath of a week-end party.

The railroader was found unconscious and in a critical condition on a road at the edge of Springfield and detectives rounded up the women and the demonstrator after several days' investigation. Learning that the demonstrator had expressed two packages to a Marion store where he had planned to work next week, Springfield authorities enlisted the aid of Marion police who went to the store and obtained the packages.

Chief Marks said one package contained a gold watch identified as belonging to the railroader and the other contained bloody clothing which Springfield police charge was worn by the demonstrator at the time of the assault-robbery.

HOOVER CITES NEED OF ECONOMIC PREPAREDNESS

By The Associated Press

PHILADELPHIA, Sept. 19 — Mobilization of "our industrial efficiency" is America's primary defense, says former President Herbert Hoover, because "in the situation today we must have preparedness in economic ideas as well as in arms if we are to defend" the nation.

He warned an economic symposium at the University of Pennsylvania's bicentennial celebration last night that if the United States enters the European war "we would inevitably become a totalitarian dictatorship" and added that:

"Any hope of maintained free economy in the world would be gone for a generation."

Hoover predicted that England would be successful in "its heroic defense."

SENATE NEARS FINAL ACTION ON TAX BILL

To Vote Today on Levy on Federal Securities.

By The Associated Press

WASHINGTON, Sept. 19—Senate leaders, pressing for final action by nightfall on the intricate excess profits legislation, were encouraged today by an agreement to vote in late afternoon on a proposed amendment which would make income from future governmental securities subject to taxation.

Chairman Harrison (D-Miss) of the senate finance committee told reporters that the senate would be "about done with the bill" when the tax exempt security issue was out of the way, even though some additional amendments might be offered from the floor.

The proposal to tax income from governmental securities, offered by Senator Brown (D-Mich) and several others, would apply to state and local as well as federal bond issues. Senator Adams (D-Colo), however, proposed that the amendment be restricted to federal issues only.

"If the states and cities lose their tax immunity," he said, "it will be necessary to pay a higher rate of interest on their bonds. It is going to cost a good deal."

On two previous occasions, each time by a single vote margin, the senate has approved taxation of governmental securities, but the action did not win house concurrence, and no change in the house attitude was anticipated this time in event of a favorable senate vote.

Carol Ruled with Firm Hand, but Fell on Demands for Magda's Banishment

Ruling with a firm hand, Carol resisted many efforts to exile Magda Lupescu from Rumania until developments in the European war forced him from the throne. Then left the country with her. This is the final of four articles on the career of Carol.

* * *

By ROGER D. GREENE
Associated Press Writer

NEW YORK, Sept. 19 — Cast into exile with a murderous gunfire salute, ex-King Carol II of Rumania and his red-haired companion, Magda Lupescu, still may dream of history repeating itself—in a triumphant return to power.

Knowing the volatile temper of his Balkan countrymen, he well may wait a few years and then attempt another coup d'etat such as he achieved in June, 1930.

That was a theatrical heart-breaker for "Bibi."

While Carol flew in a private plane to Bucharest, Magda overflowed with tears.

Feigning ignorance of Carol's plot, she sobbed that Carol left her while she kept dinner waiting for him, and that their love was ended forever.

To stress the break-up of the romance, she even wrote a letter to government officials saying that Carol had severed the knot of her charms and had made a settlement of $30,000 and a French Chateau on her.

Made It Look Good

That looked good, and as a clincher, she reportedly took an overdose of poison a few months later in despair over the shattered romance.

That looked better, as viewed by the Rumanians. Carol, they felt, had regained his senses . . . and the nation's anxiety over this quasi-clandestine affair subsided.

Within a few weeks, Magda returned.

A freckled, hypnotic beauty, with flashing blue eyes and flaming hair, she soon became recognized as the "shadow queen" of Rumania, consulting with Carol on political and army appointments, lucrative government contracts, and the shaping of his foreign policy.

Plenty of Jewels

She swiftly became the richest, best-dressed, most bejewelled woman in Rumania—a "modern Madame Pompadour," the Rumanians angrily called her.

As early as 1935, Carol was warned publicly by Dr. Juliu Maniu, leader of the powerful Peasant party, that he must banish his red-headed charmer or the peasants, 85 per cent of the populace, would rise in revolt.

Carol swiftly proclaimed martial law and forbade even mention of Magda's name.

But already the storm was gathering thunderheads, spurred by a manifesto signed by General Alexander Averescu, Rumania's war hero, exhorting:

"Into the fire with the Jewish wolf, Lupescu! The rope for this vampire who stands between the crown and country! We must uproot the weeds of the palace Camarilla which stifles the monarchy. We must finish this red-haired witch who exercises such an occult influence over the king."

Magda laughed. She had Carol order precious diamonds from Amsterdam and swing-music phonograph records shipped from New York.

Couldn't Bluff Her

She remained cool and firm in the face of 120,000 hostile peasants who marched through the capital streets demanding her banishment.

Gray appeared now in her hair and she inclined to stoutness, but envious wives of Bucharest officialdom freely admitted she was still fascinating, a brilliantly witty conversationalist, a ravishing woman even at 42. And her hold on King Carol was undisputable.

But cessations of Rumanian soil this summer to Soviet Russia and Hungary brought on the climax.

Popular indignation was boiling. Carol had ceded too much and the fiery Rumanians rioted and shouted for his abdication—and for the dusting of the woman who had wielded her behind-the-scenes influence over him.

Carol gave up. And at the end, while shots riddled the train that sped them into exile, Magda Lupescu hid under a black mantilla the tell-tale tresses that first attracted Carol nearly 20 years ago.

as yet realized that the reason for appointing "a chairman" is that it will soon be necessary to exercise authority by administering priorities among the industries of the country. For as long as the commission's work consists only in negotiating contracts, having "a chairman" or not having one will make little difference. But as soon as priorities have to be administered then a responsible head will be needed in order to insure decisions.

As the program passes from the stage of paper contracts into actual production, it will absorb such a large part of the economic capacity of the country that defense will become the dominant factor in our economy. If it does not do this, the program will have been a failure. Once it begins to be the dominant factor in the sense that defense orders have priority in all the chief markets, we shall be at the stage of sacrifices.

MARION MAN LEAVES FOR NAVAL TRAINING

Charles Wilfred Reading, son of Mrs. A. Reading of 186 South Main street, has left for the U. S. naval training station at Norfolk, Va., C. F. Silber, navy recruiter for the Marion sub-station, announced today. Reading was accepted for service Monday.

Mr. Silber also reported Lafe Leroy Phelps has completed four years of service in the navy and is now making his home with his parents at 648 North Prospect street. Phelps was discharged at San Diego, Calif. He served on the U. S. S. Tanager, a mine sweeper, at Pearl Harbor, Hawaii.

There Are Two Ways to Get at Constipation

Yes, and *only* two ways—*before and after it happens!* Instead of enduring those dull, tired, headachy days and then having to take an emergency cathartic—why not *KEEP* regular with Kellogg's All-Bran? You can, if your constipation is the kind millions have—due to lack of "bulk" in the diet. For All-Bran goes right to the *cause* of this trouble by supplying the "bulk" you need.

Eat this toasted, nutritious cereal *regularly*—with milk or cream, or baked into muffins—drink plenty of water, and see if your life isn't a whole lot brighter! Made by Kellogg's in Battle Creek. If your condition is chronic, it is wise to consult a physician.

BRITISH CENSOR CLAMPS DOWN ON WAR NEWS

By The Associated Press

NEW YORK Sept 19—For five hours The Associated Press cable from London to New York carried only routine non action stories

Up to 1 45 p m no report of a raid on London had been received since 8 45 a m

New censorship regulations prevented cabling either the start of alarms or the finish because it was said they had proven 'prejudicial to security'

The silence was almost as complete as on the day of the first big aerial assault on London 13 days ago when there was no news of the raid's effects for many hours

A moderate gale blew over the English channel but Berlin reported that the weather nonetheless ideal for Nazi warplanes to press the assault on the island kingdom

MEMORY OF THE MOON

by Jeanne Bowman

YESTERDAY: John tells Constance he doesn't trust the Taylors and wants to buy them off. Constance is shaken but a talk with old Peter renews her determination to fight.

* * *

CHAPTER THIRTY

Parade

JOHN rode off and Pedersen came up. "Miss Cabrillo," his blue eyes were lined with worry. "I'd go. We need the support of Beachport. We can't offend them. I have a trailer here; I'll have Pedro take Pancho in to town."

Constance thought of Beachport, the communal spirit of the people, her place in the community. "But what will you do?" she asked. "You're here alone. We don't know that the men will return in time to help you. I'll try. I will—"

"I know," he smiled at her. "And Mrs. Pedersen and Carl Junior, and Pedro, and Peter Senior. We'll make out; and after it's over we'll talk about getting new men in; men I can trust."

Constance thrust out her hand, found it crushed by the grasp of the big Dane, and hurried back to the house.

The outfit Pedro had brought her on her first visit; the blue shirt and golden 'kerchief, Cabrillo colors.

John waited patiently until she was ready, then they streaked towards Beachport, and half way in passed Pedro, with Pancho and his own mount in a trailer.

The rest was a blur; the hotel crowds milling; people in costume; men dressed in prospectors' outfits, a thousand women emulating Mae West; a thousand more in full Spanish skirts, tight bodices and lace mantillas. Men in tight velvet breeches, long silk hose, and jackets corded with dancing velour pompoms. Flat hats with pompoms jiggling.

Constance found herself greeted with a roar of approval, Judge Franck stood her on a table and announced in a sentorian voice: "Michael Mahoney!"

John had disappeared. Somehow she found herself in a city stable confronting a bewildered Pancho, who tossed his head and neighed his disapproval of the trappings with which he was decorated.

"Don't take it so hard," whispered Constance. "I don't like this any better than you do."

Someone led Pancho to the street. A long line formed behind them. "Go along Main Street to the water-front along the water-front to the railroad track, and back up the street to the crossing," ordered a man in a Stetson.

Constance breathed deeply, dug her knees into Pancho's flanks to hold him, and nodded.

They were off. Someone rode beside her. In a moment, when she could control this fool horse of hers, she would see who it was.

Behind her the band blared a melody. A ribald voice took up the theme. "Ride, tenderfoot, ride," he bellowed, and the marchers picked up the words and thundered them out.

Pancho shook himself and began wiggling his shoulders, mincing, prancing, keeping step to the music. "You doggone adagio dancer," scolded Constance, and Pancho picked up his ears.

"Nice going," observed the rider at Constance's side.

Constance looked up. Pedro! Pedro in his vaquero outfit, the stamp of El Cabrillo on hat band, gloves and wide, brass-studded belt.

"When you can spare an eye, look behind," he suggested.

Constance looked at Pedro instead, and hated him. Then curiosity became too much for discretion, and she turned her head.

'Purely Cabrillo'

Behind them was a carriage; its side panels painted with pictures of the Saints; its wheels gilded.

High on the box sat Juliano; proud Juliano in velvet and sky-blue and gold, arm folded across his chest.

Beside him rode Don, resplendent in black velvet, only a waistband of blue and gold indicating his heritage.

"The last of the Dons," quoted Pedro airily.

Constance turned quickly, but not before she had seen her mother in gold lace, seated in the carriage, a delightful Juanita at her feet.

"Ride, tenderfoot, ride," bellowed the plump business man who seemed responsible for keeping the parade in line.

"The last of the vaqueros," hissed Constance at Pedro.

Pedro doubled over his saddle with a great laugh.

Then, somehow, Constance caught the spirit of the parade, the spirit of the fiesta. It was fun, this riding on a dancing horse. Pancho appreciated his role. His wise amber eyes picked every beauty in the crowd and courtesied, while the audience roared approval and Constance tried valiantly to keep her dignified seat.

"Michael," Pedro's voice was full of mischief. "Who loves you?"

"You don't," said Constance.

"I can't afford palaminos for engagement presents," chuckled Pedro.

Constance bowed and smiled at the reviewing stand, and out of the corner of her mouth she shrilled, "And I can't afford conceited so-and-so's' who jump to conclusions. Pancho was purchased with my hard-earned money."

"Michael—"

Constance dug her heels into Pancho's flanks, and the horse arose in astonished indignation, waved her forefeet at Pedro's mount and returned to the pavement.

The depot was ahead. A train was coming down the grade. A mantilla-covered head was thrust out of the engineer's window; Donna, gloriously beautiful in her moment of triumph.

Pancho didn't like trains. He'd heard a few of them while he was browsing on his golden acres. He'd probably hoped that some day he could show them exactly what he thought of them.

Pancho chose this moment for his demonstration.

Constance was securely seated in the saddle one minute, the next she thought surely she had been transferred to Pegasus. This horse had wings. He also had heels. He showed his heels to the approaching engine, and then he put his wings into play.

Constance, hitting the saddle at intervals, went down the track of the Longshore Pacific. When Pancho thought he had proven his contempt he stopped. But then, thought Constance hysterically, he was on the edge of the pier and nothing but the blue Pacific lay beyond. Behind lay nothing but space; empty space, two miles of it, and one lone rider with a mount carefully picking his way across the ties.

Pedro!

Constance looked again. Behind Pedro came an entourage. The parade, she thought, had come down to the sea on horses.

Pancho was willing to return Constance met Pedro half way to the mainland. Pedro's eyebrows were inquisitive scimitars, his mouth perfectly controlled.

"Didn't care for the parade?" he asked, as the plump major-domo rode madly up to them.

"Pancho," returned Constance evenly, "knows he is owned by a Mahoney. The parade was purely Cabrillo."

Pay-Off

Constance found her car packed with Beachport guests. She managed to squeeze behind the wheel and made the drive with mad laughter in her ears.

El Cabrillo was alive again. There was to be a ball; it would last until dawn.

Half-hearing, she answered questions, then realized her young self-invited guests required no answers, and concentrated on the road. She saw Don's car flash past hers, filled to the running boards. She saw other cars, and when she reached the terminal of El Cabrillo Real she found them disgorging.

Constance slipped through the crowd jammed at the front doors, and went to her room to change. She stepped into and faced a black-laced fury: Donna, cheeks scarlet, eyes flashing with anger.

"That was a nice trick for one sister to play on another," she raged. "And believe me, those lumbermen are furious. They plan everything, have motion picture cameras, newspaper men and photographers up from San Francisco; everything staged for my entrance into Beachport to meet the parade; and what happens?"

Constance looked at her in mute consternation.

"I'll tell you what; you, my very own sister, who is so jealous of a cow-hand that she can't see straight, puts on such a show that the parade turns and follows her clear out to a pier a mile away . . . with . . . with . . . no parade."

"Donna," Constance wondered whether she could laugh or cry. "I couldn't help that. Pancho has never had to face an engine before. If you couldn't ride him across a mud-hole, you can imagine what it was like trying to keep him in the line with the crowd shouting, bands playing, and that engine roaring down the grade."

"Oh, no," Donna wiped her eyes, "you don't get out of it that easily. Pedro told me that you handle a horse better than any woman he'd ever seen and better than most men. You did that deliberately. It was your pay-off for not being chosen to bring the train into town.

"Now it's my turn, and I'm going to pay you off if it's the last thing I do."

The heavy door slammed behind her. Constance would have liked to sit down and digest what Donna had said, but there wasn't time. One glance out of her window proved that every hand on El Cabrillo was in costume and serving the guests in one capacity or another.

A sweat shirt and blue jeans, heavy sportshoes, and a 'kerchief tied under her chin, and Constance slipped out through the kitchen to race up to the barns.

It was dark when she returned. She had barely seen Pedro. He'd worked in another barn, but he'd shouted across that he'd had Pancho rubbed down and blanketed in Beachport and that he was now safely home.

Reaching her room, Constance found it filled with girls, two occupying her bed as they drew gossamer stockings over slim legs. They looked startled, as Constance came in.

"Oh, hello," said one. "Oh... you're Donna's sister, aren't you? Was there something you wanted?"

Constance looked at the opened bags; at strange bottles, jars and make-up kits on her dresser. Donna was beginning her pay-off. She had given this room to guests.

To be continued.

DOUBTS RETURN OF FORMER LOAN RATES

FHA Official Addresses Meeting of League in Columbus.

By The Associated Press

CLEVELAND, Sept. 19—There is "little likelihood" of an early return to loan interest rates of earlier years in the housing field, Dr. W. H. Husband, member of the federal home loan bank board in Washington, said today in an address before the Ohio Building and Loan league's 52nd annual convention.

He counseled delegates that the type of lending policy savings and loan institutions adopt will determine their future position in this field.

"Already many have been shocked by long-term maturities, high ratios of loans to value, and rates of interest which appear low in comparison with earlier years—not to say risks entailed," Husband said.

"Indeed many regard these innovations in lending terms as a passing parade which will shortly reach its goal. Such observers may be right, but they need to consider the fact that they may be wrong. Moreover, the emergency conditions arising out of war and defense activity confuse the picture so that there is little likelihood of an early return to the standards of bygone days."

RADNOR MAN INJURED AT QUARRY NEAR DELAWARE

Special to The Star

DELAWARE, O., Sept. 19—Frank Wright, 58, of Radnor, is in White Cross hospital in Columbus for treatment of injuries suffered Tuesday in an accident at the Penry sand plant on the Marion road north of Delaware.

One of his arms was badly mangled. According to a report the accident occurred while he was greasing belts.

The Great Salt Lake is 30 miles wide and 70 miles long.

KENTON MAN NAMED IN LOVE THEFT SUIT

KENTON, Sept. 19—A suit demanding $10,000 for alienation of his wife's affections was filed in common pleas court by Don Holden against Milburn Ludwig. The petition charged that Ludwig's attentions to Mrs. Dorothy Holden caused her to leave her husband on Sept. 9, 1940.

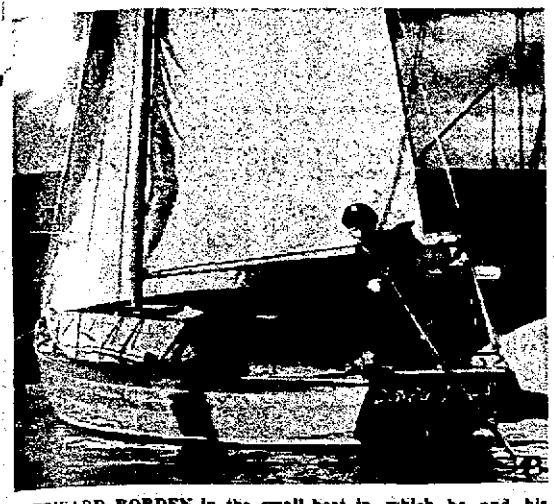
More and More Americans Are Making An Effort To Get Away from It All



EDWARD BORDEN in the small boat in which he and his wife made a safe crossing from California to Honolulu. This method of "escape" is quite common.

HENRY R. SHAW, who lives in a driftwood shack at Fort Bragg, Calif., reads some of the fan mail he received after being written up in the newspapers.

WILLIS R. WILLEY, at the door of his rolling home, holds two of his companions, a coyote and an opossum. He says he hasn't worn conventional clothes since 1918.

By SAM JACKSON
Associated Press Writer.

SAN FRANCISCO—In a world disrupted by war and depression, an increasing number of Americans turn to strange and solitary ways of living.

Taking to the sea, to the mountains, or to the open road, they try to get away from it all.

California has attracted a large number of these self-elected hermits.

A good many of them get their names in official records.

If they are too eccentric in dress or behavior, the police pick them up. If they go to sea and get lost, the coast guard handles their cases. Some of them are on county relief rolls.

House On Stilts.

Here is how some escape the turmoil of the modern world:

At Indio, William Prester lives high above the desert in a shack on stilts. He wears only shorts, sports a long beard and scans the horizon with telescopes of his own contrivance.

His neighbor, John Silva, spent 40 years in Ceylon, became a Buddhist monk and now styles himself Bhikkhu Silawansa.

At Woodland a bearded character known as "The Gopher" lives in a burrow in an open field. He is reputed to have considerable money—in a bank.

Henry Shaw occupies a shack of driftwood on the rocky coast at Fort Bragg. He is an Oxford graduate and a former Church of England clergyman.

High in the Santa Cruz mountains lives Mrs. Ernst Benninghoven. For years she was a religious writer and lecturer. Now she lives a solitary life and talks to her rare visitors in the language of the Bible.

An aged negro lives under a bridge near San Francisco.

Bearded, half-naked Willis R. Willey calls a crude house-car his home and travels from place to place with a coyote, two turtles and 14 opossums. He took to the road in 1921 after losing his Washington farm in litigation and is convinced that the married people of the country have it in for him and other bachelors.

Two Brother Johns, white-bearded and patriarchal, roam California. One wears a white robe and blows a trumpet.

Most picturesque of the wandering brotherhood is Peter Voiss. A former prospector, he sticks to his covered wagon and burros and supports himself largely by charging camera enthusiasts for the privilege of taking his picture. A San Jose dentist refused the fee and snapped his camera anyway. Voiss shot him dead and was acquitted by a jury.

More sociable but nevertheless catering to the "get-away-from-it" spirit are the flourishing art colonies and religious centers.

The Theosophist colony at San Diego and Rosicrucian centers at San Jose and Oceanside are impressive. Their large buildings are set in beautiful grounds. In them many persons of wealth have sought relief from everyday cares.

Some Choose Islands.

Humbler folk live a detached existence at "Father" William E. Riker's Holy City, an all-religious mountain village.

To many the escape idea means escape to a tropical island. Departure of some adventurous little sailboat for the South Seas is an almost weekly occurrence.

Operated like shears, tongs three feet long have been invented to enable persons confined to beds to pick up articles dropped on floors.

CAT STOWAWAY
By The United Press

FORT WORTH, Tex. — A high-flying cat whose home is in airports from coast to coast presents a puzzle to airline officials between New York and Los Angeles. The cat, a furry black and white youngster, appeared at the Fort Worth airport early this summer. Some one said it came from Memphis. Another pilot said he had seen it in Los Angeles. Animals are regular riders on the commercial airlines, but this kitten has a knack for slipping unnoticed into plane baggage compartments. Shortly after its first visit here, the cat showed up in New York. Three days later, it was snoozing peacefully in the airport manager's office here.

HARDING SET FOR GRID OPENER AGAINST TIFFIN FRIDA

1939 N. C. O. Champs Face Troubles Caused by Graduation and Injuries; Game Opens at 8.

IF COACH Bill Williams enjoyed worrying, he could have a swell time thinking about the prospects of Harding High school's N. C. O. champions in their season-opening grid battle Friday night against Tiffin Columbian.

It wasn't enough that he had to lose some 20 men, including his entire first string backfield, when sheepskins were handed to the graduates last spring. The injury jinx has started already and at least three top-notchers are on the sidelines.

Despite intensive practice, some of the squad are a little rusty, but a tapering-off drill tonight at the Harding stadium may polish them up.

Beaten by Bucyrus

At first glance, most observers might think Harding has a push-over when Columbian invades the Harding field at 8 o'clock tomorrow night. The Tiffin boys had the dubious honor last Friday of being the first victim of Bucyrus in two years, failing to score once while the Redmen rolled up 19 points.

But Coach Williams thinks differently. He's looking for a tough game, but hopes he's wrong. And he may be.

Scouts report Tiffin will bring a veteran team to Marion, plus a line which will outweigh the Presidents' forward wall. In the Tiffin backfield are a couple of young 175-pound giants who may cause trouble, too.

Harding's drills since Tiffin was scouted have been aimed at the Tiffin offense.

Summing up the Harding picture, it appears a green backfield will be working behind a line composed almost of veterans.

Williams listed eight candidates for backfield jobs, only one a veteran of past campaigns. The seven recruits are John Edington, Howard Gilbert, Leo Belknapp, Howard Hodges, Charles Roberts, Lou Petty and Schaadt, a junior halfback. The lone veteran in the backfield is Warren Ferguson.

Light Backfield

The backfield is expected to average about 150 pounds, although it would have been a little higher had not 170-pound Day Hurst joined the casualty list. Hurst, a quarterback, suffered dislocation of his left elbow last Saturday and is definitely out of the lineup for this week. Roberts may replace him.

Pete Bascos, left tackle and place kick artist, is recovering from a baseball knee injury and is not likely to see service tomorrow night.

Third man on the sick list is Owen Creasap, captain and right end, who about a week ago reinjured his shoulder which was hurt in the summer during a baseball game. He may be able to start against Tiffin, however.

The Presidents' line will include several veterans. King Keller at center, Wayne Short at left guard, Bud Edwards at left tackle, and Howard Richardson at left end are among the returning linemen.

Martin Lewis will fill in for Warren McGinnis, all-N. C. O. guard, who was graduated last spring. Jim Turner will fill the shoes of Bob Zeisler, last year's tackle. Joe Roseberry may also get a call for this spot.

Kennedy Left End

Bob Kennedy is replacing Jack Lewis at left end and Ed Messenger has come up from the re-

It'll Take a Real Champion To Win Three-Way American League Dogfight

IN RECENT years the National league has provided all the last-month fun in baseball —*the Yanks were always too far ahead in the American loop. Not so this year.* While Cincinnati coasts along in the National, the junior league is offering one of the *most interesting pennant fights in history. Here's how the contenders stack up:*

Yankee pitching mainstay is veteran Red Ruffing. When other old-timers faded, only the sensational work of young Marius Russo, Rookie Ernest Bonham and Relief Hurler Johnny Murphy lifted the champs.

Yankee hitters (team average about .280) are paced by Joe DiMaggio (.340). Loss of Tom Henrich left Joe as only man above .300—but Rolfe, Gordon, Rosar, Dickey, and others give Yankee attack timely power.

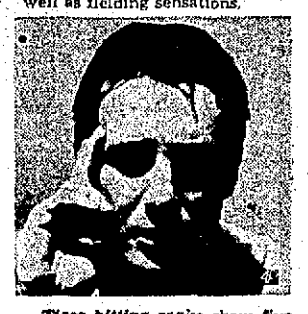
Yankee manager is Joe McCarthy whose smooth-working machines have won four World Series in a row. New Yorkers, poise, power and spirit of his former champions.

Indian pitching ace (and class of the league) is Bob Feller, expected to win 27 games for Cleveland. Al Smith and Al Milnar, also regular starters, faded in September slump. Other hurlers aren't too dependable.

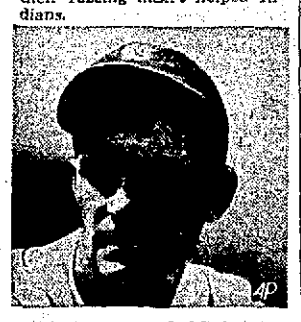
Indian hitting star, with Trosky hurt, is Roy Weatherly. Cleveland has been hitting about .275, lacks power of other clubs. Rookies Boudreau and Mack, both at .300, have been the team's hitting surprises as well as fielding sensations.

Indian manager, Oscar Vitt, has been able to do little managing since mid-season players' uprising. Team's petition for his ouster brought down wrath of fans around the circuit and their razzing hasn't helped Indians.

Tiger pitching key is burly Buck Newsom, aiming for 20 games. Schoolboy Rowe and Rookie Gorsica, along with Tommy Bridges, have helped keep Detroit near top. Newhouser could help with his early form.



Tiger hitting ranks show five men above .300, led by Hank Greenberg. His .329 odd average and some 115 runs batted in head a parade of power-hitting companions: McCosky, Gehringer, Sullivan, and York.



Tiger manager, Del Baker, has moved Detroit along at smooth pace. His shift of Greenberg to the outfield to permit York's power to be added at the plate has worked out as the year's strategical masterpiece.

Vitt Upsets Dope by Using Feller; Detroit Splits with A's.

By The Associated Press

CLEVELAND, Sept. 19 — Wily Oscar Vitt, the Indians' pilot, successfully met strategy with strategy, so the Tribe stands at the top of the American league again today.

After Johnny Allen outpitched the awesome Ken Chase for a 3 to 1 victory in the opener of yesterday's doubleheader with the Washington Senators, Vitt pulled a surprise by sending Bob Feller to oppose Sid Hudson in the nightcap. Feller, aided by the super-fielding of Roy Weatherly and Lou Boudreau, turned back the Nats 2 to 1.

The double win enabled Cleveland to grab a half-game lead over the Detroit Tigers, who divided a twin bill with Philadelphia.

The bargain bill was an air-tight exhibition with a veteran and a youngster sharing the glory.

Breaks Own Record

Called into service after only two days of rest, Feller yielded five hits in posting his 26th victory of the season and struck out seven men to bring his total for the season to 251 in 301 innings—four more than his total for 1939.

Tiring perceptibly in the last part of the nightcap, Feller shut out the Nats until the eighth inning. With Cleveland leading 2 to 0, Jimmy Pofahl singled in that frame. Rick Ferrell and George Case walked, and Pofahl scored Washington's lone tally on Buddy Lewis' fly.

Earlier, Weatherly staved off a Washington scoring threat with a sensational catch. With two men on base, Lewis drove a liner to center that looked like a hit, but Little Stormy went up in the air, somersaulted, and came up with the ball.

And it was Weatherly who tallied the Indians' first run with a sixth-inning homer. In the seventh, Ray Mack's deep fly went for a two-bagger as outfielder Gerald Walker misjudged it. The Tribe's second baseman took third on Rollie Hemsley's grounder and scored on Feller's single. Cleveland collected nine safe blows in all off the hapless Hudson.

Chase Loses Skill

Chase, often a nemesis for the Tribe, lost control in the second issuing four bases on balls to force in all three of Cleveland's runs.

Beau Bell started the inning with a single and took second on Ken Keltner's infield out. Mack walked and Frankie Pytlak singled, filling the bases. Then came two walks in a row, Allen forcing Bell across the plate and Ben Chapman scoring Mack. Weatherly's grounder struck Allen on the leg, Johnny going out while Weatherly was credited with a single. Boudreau walked to force Pytlak home, and then Hal Trosky flied out to retire the side.

The victory was Allen's ninth of the season.

St. Mary Grid Opener Tonight

Students Hold Pep Meeting in Preparation for Clash with Tiffin Calvert Here.

St. Mary gridders will open their 1940 home season tonight at 8 o'clock at Harding stadium, facing a highly-touted Tiffin Calvert eleven. Coach Bernard Berens tapered off the workouts last night at the Aronhalt lot, drilling his cohorts on offense and various defensive formations.

Place-kicking and punting also came in for their share of attention.

A last minute change announced by Coach Berens is substitution of Murphy for Norris at quarterback.

Irish rooters, some 300 in all, gathered at the school grounds last night for a pre-game pep rally. Rev. Father William J. Spickerman and Rev. Father Arnold Favret spoke and Coach Berens was in charge.

Each player was called on for brief remarks. Cheers were led by Arthur Hoehn, Carl Manaici and Sally Dee.

Preceding the Irish-Tiffin game tonight Harding's Presidents will hold a final workout at the stadium and early arrivals may get to watch the drill.

The Tiffin team will travel here by bus.

"Brookdale" Wins $1,353 Race at Delaware Track

By The Associated Press

DELAWARE, O., Sept. 19 — Brookdale, driven by Delvin Miller, won the featured $1,353, trotting club stake in yesterday's Grand Circuit harness race program.

The bay horse, owned by G. F. Benham of Cedarhurst, L. I., led the way in two heats in 2:05 and 2:04.

Vic Fleming, driving Queens Mac, and Karl Recor, behind Brady Hanover, were set down for beating the McNamara barrier in the first heat of the race. Fleming returned in the second heat, but Recor withdrew.

Snoozer, bay gelding owned by Jay Weller of Republic, O., was piloted by Edwin Weller to victory in the $500 Delaware Fair handicap, winning the initial heat and placing second in the other two.

Dr. Hugh M. Parshall of Urbana, O., won the $500 purse in the Junior Fair Handicap for two-year-olds, driving Danville Anna, bay filly owned by Danville Syndicate of Danville, Ky. The winner had two firsts and a second.

The $310 home talent two-year-old pace was won by Hot Feet, black colt owned by Joe Neville of Delaware. Driven by Wayne Smart, it bested Mr. Voici, bay stallion owned by Ed Dunwoody of Newark.

GREENWOOD BATTLES KEYTOWN TO 1-1 TIE

Darkness Halts Series Game at End of 6th.

Fighting for a spot in the finals of the Little World Series, the Greenwood Sunday school aggregation and the Keytown Campers battled to a 1 to 1 tie last night before the game was called at the end of six innings because of darkness.

The game will be replayed Friday night at 5:30, with the winner meeting Epworth's No. 1 league entry in the final game Saturday or Monday.

Pitchers Are Hot

Both Greenwood's Woodie Walters and Harold Millisor of Keytown hurled better than average ball through the six innings, Millisor allowing only four hits and Walters keeping Keytown's seven hits well-scattered. Walters struck out nine Keytowners while Millisor retired six batters via the strikeout route.

Greenwood scored their run in the second. Third Baseman Johnny Marshall led off with a hard grounder between first and second, good for a double. Bill Armbruster, the second baseman, struck out. Ted Anderson, left fielder, walked. Catcher Ray Donaugh popped out. Center Fielder Bert Ingram doubled, scoring Marshall, and Walters was out on a long fly to center field, retiring the side.

Keytown's Score

Keytown's only tally came in fourth. Shortstop Mickey Ferrin, leading off, got a single. Johnny Cowgill, first baseman, struck out and Millisor beat out a slow grounder, forcing Ferrin at second. Left Fielder Seiter walked, advancing Millisor to second and Catcher Clayton Harper rapped out a tricky hopper past short, scoring Millisor. Right Fielder Leslie Burnell popped out, ending the inning.

KENTON UNDERDOG IN VAN WERT INVASION

Special to The Star

KENTON, Sept. 19—When the Kenton High school Wildcats invade the lair of the Van Wert Cougars Friday evening, they will be rated as underdogs and will be without the services of Ted Augur, regular end, and Jim Pfister, varsity guard, who sustained leg injuries in scrimmage this week.

The Kenton team eked out a slender 14 to 12 victory over Forest in the opener and has received intensive training in charging, blocking and forward pass defense this week. Coach Leroy Raber held only a slender hope that his boys would be able to defeat the heavier, more experienced Van Wert team which edged Kenton last year.

CLEVELAND RAMS SET FOR OPENER SUNDAY

CLEVELAND, Sept. 19—Coach Dutch Clark of the Rams will stress pass defense and place kicking in preparation for Sunday's league opener with the Philadelphia Eagles. The Cleveland club showed plenty of power as they rolled over the Chicago Indians by a score of 38 to 0 in an exhibition game last Saturday night at Steubenville.

Scoring in the first four minutes of play on a sustained 88 yard drive, the Rams went on to pile up a 32 to 0 lead in the first half.

Following the Philadelphia game this Sunday, the Rams will journey to Detroit to meet the Lions, Sept. 29, and then will return home to battle with the Chicago Bears, Oct. 6.

A WANT-AD Did it!

Giles Hopes Reds Meet Detroiters in World Series

By TED MEIER

By The Associated Press

PHILADELPHIA, Sept. 19—The champions of the National League—the Cincinnati Reds—don't care what team wins the American League pennant, but General Manager Warren Giles hopes it's Detroit.

Giles watched his club clinch *their second straight flag* by coming from behind yesterday to beat the Phillies, 4 to 3, in 13 innings at Brooklyn lost to St. Louis.

"We'd probably draw more in dollars and cents if we played Cleveland," Giles said. "But on the other hand we might not. There might be 80,000 in the Cleveland stadium one day and then drop off. Then that dissension sort of takes the bang out of it.

"In spite of what a lot of people might think, ball clubs consider more things than money. I don't care who wins the American League pennant—we'll beat whoever it is—but I think we'd do better with Detroit than any other team."

The Reds whooped it up in their dressing room after southpaw Johnny Vander Meer scored the winning run in the thirteenth, but the big celebration was reserved for tonight. The boys want Paul Derringer to win his twentieth game against the Phils today.

"We'll celebrate tonight," explained Manager Deacon Bill McKechnie. "We have a day off tomorrow. Today we play ball. The boys deserve a celebration."

Cincinnati Fans Strangely Calm

By JOHN FRYE

By The Associated Press

CINCINNATI, Sept. 19—A year ago next week, the followers of the national sports in this town were whooping themselves hoarse, kissing perfect strangers, doing handsprings across the suspension bridge, and acting in general as if somebody had just gone the length of Fine street tossing negotiable bonds out of barrel.

Today there is a strange calm, as dead as the geometric center of a vacuum, spread over the Queen City. Solid citizens are going about their beer and skittles as if nothing happened.

Last year the Reds won their first pennant in 20 years and this year they won their second in 21. Out for all the excitement, you'd think the Red fans were New Yorkers, who have had pennants in one league or the other for a good part of those two decades.

A downtown tour of the bar rooms, where the rabid fan is accustomed to await the news of the day, showed, after the Reds had clinched the pennant yesterday, that life was going on in its usual grooves.

Money was won and lost, of course, on the outcome of that 13 inning battle in Philadelphia, but money is won and lost every day here on the outcome of something, from the flip of a bottle cap to a race a thousand miles away between a couple of platers nobody ever heard of.

The next issue is something he can't control—"who's to be the opposition in the World Series which we are going to win?"

Here the betting Cincinnatian is over his depth. All he knows about the American League is what he hears from some friend who had nothing better to do on a trip than take in an American League game.

So, until that matter is settled, nobody's getting up a head of steam. But if the Reds bring home that world championship, hold your hats!

CALEDONIA WINS FROM PLEASANT TWP., 1 TO 0

Caledonia High school defeated Pleasant township, 1-0, Tuesday night, with Pitcher Dick Shelton of Caledonia hurling a no-hitter. He walked only two men. Miller of Pleasant allowed only four hits and held Caledonia scoreless until Arden Cover hit a home run with two out in the last half of the seventh.

Last Friday Caledonia defeated Green Camp, 13-3.

In the game with Pleasant, Caledonia's hits were by Cluff, Rose and Cover, who had two. Caledonia had one error and Pleasant two.

FINDLAY BEATS LIMA

By The Associated Press

LIMA, O., Sept. 19—Findlay's Oilers, underdogs in the Ohio State league playoff series, face the champion Lima Pandas tonight with a rightful claim for added respect. A decisive 7 to 3 victory by Findlay last night squared the series at two games each.

RED BIRDS AND BLUES EVEN UP A. A. SERIES

Columbus Beats Louisville, K. C. Tops Minneapolis.

By The Associated Press

American Association baseball rivals for the Shaughnessy playoff title today were exactly where they started two days ago—all even.

The leaders at the end of the pennant fight—first place Kansas City and second place Columbus—each won last night, thus squaring the preliminary series at one game apiece.

Two Kansas City homers accounted for four runs and a 6 to 2 victory over Minneapolis. Frank Melton of Columbus stopped Louisville, 5 to 3, with a six-hit performance.

Tonight the scene of one battle shifts from Kansas City to Minneapolis, where the first and third place teams resume their series. Columbus and Louisville, however, will be idle, their third game being scheduled for Friday night at Louisville.

• • •

By The Associated Press

The Jersey City Giants and Baltimore Orioles, each badly needing a victory to keep in the running in the preliminary round of the Governor's Cup playoffs, will have the advantage of playing on home grounds tonight when they square off against the Newark Bears and Rochester Red Wings in the third game of the best-of-seven series.

The little Giants and Orioles each dropped the first two games at Newark and Rochester respectively and it defeated tonight their chances of advancing to the final round will be slim.

BASEBALL

(Continued from Page 20)

Sox dividing their double feature, the standings are:

Club	W	L	Pct.	GB	TP
Cleveland	84	61	.579		9
Detroit	83	61	.576	½	10
New York	79	64	.552	4	11
Chicago	79	66	.545	5	9

(GB means games behind leader. TP means games to play).

In the National league the Reds cinched the flag, beating the Phillies, 4-3.

The St. Louis Cardinals, of all clubs, gave the Reds an assist by crushing the Brooklyn Dodgers, 14-7, with a 17-hit bombardment that included four singles by Johnny Mize good for six runs.

In the two other National league games, Jim Tobin held his old Pirate teammates to five hits as the Boston Bees beat Pittsburgh, 4-1, and Stan Hack hit two homers and a single to help the Chicago Cubs hand the New York Giants their tenth straight setback, 6-4.

Wire Themselves Out

The tragedy of the Tigers was that they won their first game from the A's, 14-0, and weren't able to save any of this margin for the second session. In the first game, Tommy Bridges went so well he was pulled out in the seventh to rest for Cleveland. Hank Greenberg hit two homers, one with the bases loaded. Then, in the nightcap, Detroit got a 6-4 lead on homers by Greenberg and Rudy York and collapsed in the ninth, giving the A's nine runs. Bob Johnson hit a three-run homer in this frame. Benny McCoy had done the same in the fourth.

Chicago came close to passing over the Yanks into third place, and 37,000 ardent Southsiders were present for the kill. Lefty Thornton Lee pitched six-hit ball as the Sox won the first game, 6-3. In the second game, the Yanks led off with four runs in the first, but Chicago came right back with five and added three more in the fourth. Then Twink Selkirk homered with two on in the seventh; the Yanks got two more in the eighth, and darkness closed the show before Chicago could do anything about it.

The St. Louis Browns squenched the Boston Red Sox, 11-2, with a 14-hit offensive.

MARKET GAINS IN SLOW DAY

Leading Issues Add Fractions Although Traders Are Cautious.

By The Associated Press

NEW YORK, Sept. 19—Bidding was slow but persistent in today's stock market and leading issues managed to add fractions to their recent advance.

Securities at London retained their even tenure. Rail bonds were in fair demand and commodities steady.

Stocks accorded support included U. S. Steel, Bethlehem, Douglas Aircraft, United Aircraft, Pennsylvania, Chrysler, General Electric and Union Carbide.

Athough the feeling of many in the financial sector was that, despite the constant air blasting of England, the British have a better than even chance of withstanding the Nazis through the winter, most speculative contingents were disposed to keep accounts in shape for readjustment if a surprise should be sprung in the European embroglio.

Coppers had the benefit of a boost of ½ of a cent a pound in the scrap metal.

BEAUTY STRICKEN

Gordyne Sedgwick (above), 21-year-old beauty contest winner of Syracuse, N. Y., was stricken in New York City with an uncommon disease which physicians said might paralyze her lungs. She was placed in an "iron lung" but later taken from the artificial respirator after a study by specialists.

Boston Wool

By The Associated Press

BOSTON, Sept. 19 — Trading in wool on the Boston market was mostly on fine wools today. Original bags, fine territory wools of good French combing length were bringing mostly 85-88 cents scoured basis. Twelve months Texas wools were moving at 88-89 cents scoured basis. Choice lots of Texas wools running bulk staple combing lengths brought 89-91 cents scoured basis. Demand were slow on three-eighths and one-quarter blood grades in both territory and fleece wools.

TWO BODIES RECOVERED

By The Associated Press

McCONNELSVILLE, O., Sept. 19—Volunteer firemen early today recovered from the Muskingum river the bodies of James Riley, 32, and Mrs. Emma Riley, 27, and continued a search for Raymond Riley, 20, her husband. All three left their homes in Roseville Tuesday night to inspect trot lines at their cabin two miles below, at here.

EARLY WHEAT GAINS LOST BEFORE CLOSE

By The Associated Press

CHICAGO, Sept. 19—Buying of September wheat contracts, in which no trading will be permitted after Saturday, helped to strengthen wheat prices here today but gains were held to small fractions and were wiped out before the close.

September wheat purchases were attributed to consuming interests who regarded the contract as the cheapest source of cash grain and to previous "short" sellers not wishing to make delivery before the end of the month.

Russia was understood to have entered the Pacific coast market for soft white wheat but this caused no surprise in the trade.

Although holding higher most of the session, wheat closed unchanged to ⅝ cent lower compared with yesterday's finish, deferred contracts showing most weakness due principally to transfer of hedges. Sept. closed 78⅛ and Dec. 77⅝-½. Corn was ⅝ off to ⅛ up, Sept. 61⅛, Dec. 58⅝; oats ⅛-⅜ lower.

YOUTHS HELD ON STREET LIGHT BREAKING CHARGE

Four West Side youths, two 18 and the others 16 and 17, were arrested by police on disorderly conduct charges last night after they allegedly broke several street lights in the vicinity of the Glenwood school.

One of the 18-year-old youths was ordered held at City prison overnight when he became surly during questioning at the police station, Chief Marks reported. The others were released to report today, Chief Marks said that charges probably will be filed in municipal court against the two older boys and that the others will be arraigned before Juvenile Judge Oscar Gast.
